Hey guys!

lately i saw few questions about gift cards on amazon like...
do they expire can i use multiple cards can i use it to add my balance?

Well simple answers to the questions.

Q.Do they expire?

A.No gift cards will never expire so you can save them up if you want:)

Q.Can i use multiple cards at once at the checkout?

A.Yes you can, At the checkout you can choose your gift balance instead of your credit card.

Q.Can i use gift cards to add money to my money balance?

A.Yes, on amazon you have a special Gift balance every time you receive a gift card you can add it to your balance and if you want to check out you just use your gift balance.

Q.Can i use amazon in Europe because its .com?

A.Yes you can use amazon but not .com, what you can use is www.amazon.co.uk they should send items through Europe, they have less items than amazon.com but its still usable in europe:)

Q.Can i use amazon giftcard that was bought from another country in my country (exs-another country: canada, my country Germany)

A.Yes you can use every gift card you get for amazon in your amazon store you use the gift card is international.

Q.If i have a gift balance on amazon.com do i still have the balance on amazon.co.uk / amazon.de?

A.No you don't because they are different websites, so they don't combine the balance and/or user&passes

I hope this questions were answered and you understood everything, if any other questions appear feel free to pm me or post it in the reply's.
