Why would you give a method out, that can make you so much money?

The one and only answer is: "Because it can not get saturated in any way". This method is like fingerprint. Nobody will use the exact same approach as other customer. So, why not make even more money if I have a valuable information? You know the saying: "Rich get Richer".

Will this method work worldwide?

Yes, this method works worldwide. You can use it online and offline. Just stick to the "System". You will not break any laws. This method is totally whitehat!

Betting is restricted in USA...

First of all, this method has nothing to do with betting/gambling. Well, maybe little. You do not make any bets. We just use this method on betting sites (In course I provided few best ones for people from USA. They are totally legal and are online for more than 10 years now). It is all about Internet betting exchange, which works in similar way to Forex, Stock exchange... The only difference here is that stacks are much lower and profits are much much higher. But the most important thing there is that you do not need so much knowledge. Even 10 years old kid can understand the principles of this course!

1000\$ in 10 days

Yes this is totally possible. I made this amount of money in 10 days with the exact same method. That is why I can say that it is possible. BUT. Do not get me wrong here. It is not that easy to reach 1000\$ in 10 days. Most likely you will need between 15 and 20 days. It is just about how good is your understanding about specific topic. At the beginning you will start slower, but when you will get little experienced about it, you will reach 1000\$ much faster. But 10 days is the minimum...

Why I can not get this course in eBook (.pdf) form like every other eBooks?

Simple answer. Because I do not want this course to get leeched. You will get your own username and password on Course website, where you will read course, see updates and everything. It is much easier to manage updates there and it is more unique and original.

Hope you start selling this mate.

(Aug 20, 2012 12:53 PM)Karma. Wrote: [\[CITE\]](#) Hello HF, I got the chance to review this eBook and i'm going to post my perfectly honest opinion here.

I took a look at this method, and I really don't see any flaws in it. The method is very in depth and when Rofl said he used it and has experience he wasn't lying, this book is 30 pages, but there's 13 pages of factors, things to remember and keep in mind, the best sites to use this method on, and so much more. The intro is defiantly worth reading if you're not experienced.

The method is a good, long, and really packs the info in while explaining it well. It defiantly has the potential to get money. You can't invest the \$10 with Paypal, you have to use a card.

Overall, good method that can work. The amount you'll make is accurate to the one stated. I will update this post, or the sales thread with a picture of my new Ultrabook or Mac i'll be purchasing.

Thank you for the review copy Rofl.

MORE TO COME!

I AM LOOKING FOR 1 BETA TESTER. IF YOU THINK, YOU ARE TRUSTED IN OTHER MEMBERS EYES, CONTACT ME!

Not meaning to trash your thread but looking at the screenshots I do believe that this is a public method.

Either way, GLWS.

ShellShock - October 26, 2013, 11:06 am

Sounds pretty interesting, I might consider buying this after customers post reviews/proof.

Believe me. This is not public known and can't be really easy to find online. I can guarantee that you can not find this method here on HF... I was working on this method for past year by myself and failed few times but this is the best way to learn. So I put this information together. Course has more than 4700 words and it is explained in details. I put a lot of hard work into this method, including making special website just for this course...

Come back in few days. I will give review copy to trusted member and he will tell if this is worth buying. And. I will also post some more proofs from my earnings in next days, including cash out proof ;)

Yes people from U.S can do this easily. This method is 100% legit and everything. I know betting is restricted in U.S, but since this is NOT about betting it can be easily used in U.S. I also provided some extra information for people from U.S

P.S. In next few days I will post proof of my money cash out so you will see that this method is legit ;)

Cool i'm willing to buy this since you will provide us U.S customers with extra information to make this work.... First i have one more question how much money will i need to invest after purchasing this ?

Ve7o - October 30, 2013, 7:01 pm

Why would you sell the method for so cheap if it works so well and can be saturated

You can start with 1\$ or 10\$. 10\$ is the maximum ammount of money, because system is written in the way that you can not lose your money. I mean, you can, but you must be very stupid if this happens...

Before asking please read FAQ... Here is the answer to this question: "The one and only answer is: "Because it can not get saturated in any way". This method is like fingerprint. Nobody will use the exact same approach as other customer. So, why not make even more money if I have a valuable information? You know the saying: "Rich get Richer"."

And I posted proof made by camera, it is not prt screen or something. And yeah here is video also. Today I am going to bank to cash out my money. I will post this proof also, so be prepared ;)

I even did not need beta tester, because copies were sold out really fast. And I really do not need fake "proofs" and "vouches" for me. I am opening 5 new places for this course

(<http://www.wildgame.netai.net>)

And yes there are proofs from customers and questions from them. Check out website and see. If you have any more questions ask them below or send me pm.
