I get worried on HF, not just of scammers, but of GFX artists who take you as 'just another customer', or don't really care if the work they produce is good.

I can say that Designer works EXTREMELY hard on his designs, and doesn't stop until it's perfect for the customer which really shows in his connection to you.

He's cheap, and I don't mean that work-wise. Keep it up bro, you got my vouch.

(Nov 21, 2013 02:54 PM)Glockbuster Wrote: [\[CITE\]](#) I hired three graphics designers before him to complete work for me, and none of the three even finished the work. I opened one scam report it was so bad, which isn't something I enjoy doing. But when it comes to Designer, from the start I didn't have to worry, and here is why.

1. He was extremely available, and responded to my questions in a reasonable time.
2. He took the time to truly understand what I wanted, even though I can be picky at times he never once showed signs of being annoyed.
3. His end-product was of the highest quality, and literally only needed minimal content adjustments.

I HIGHLY recommend Salient Designs, and I will continue to use him for the foreseeable future.

(Feb 16, 2014 02:46 AM)Isidar Wrote: [\[CITE\]](#) This guy...what can I say about him and his designing skills?

PHENOMENAL. EXHILARATING. STUNNING. ASTONISHING. AESTHETICALLY PLEASING.

The list can go on forever. Designer has done so much work for me it's unreal. Every time I order work from this guy, he's just so damn quick in delivering the work it's crazy. He is always willing to show you what he's doing along the way to ensure it keeps in tune with that you had in mind. He will also make amendments if it's needed and is overall just such a friendly guy and from all the orders I've done with him, we've become good friends and I'm glad I ordered with him the first time.

The aesthetic aspect of his graphics work is just amazing, he blows me away every time. I imagine what I want something to look like before placing an order and when I get the completed work, it's 1000% better than what I imagined. There is no single word to describe Designer and his fantastic work, there really isn't.

Buy from this great, amazing guy. You shan't regret it!

No it's not mine, nor was I trying to "copy" that name.

The word 'salient' means "most noticeable or important" and that's what I'm trying to provide for my customers. So, their products or services are visibly appealing and attract more buyers, if they aren't already. :)

Vouch for Designer. Came to him with a not so different job, but he completed it amazingly.

I get worried on HF, not just of scammers, but of GFX artists who take you as 'just another customer', or don't really care if the work they produce is good.

I can say that Designer works EXTREMELY hard on his designs, and doesn't stop until it's perfect for the customer which really shows in his connection to you.

He's cheap, and I don't mean that work-wise. Keep it up bro, you got my vouch.

I can confirm Designer works. I got about 6 previews or something and Designer kept tweaking till it fit my needs. I felt quite bad honestly making him do more work and paying the same price. Though, I got a few nice avatars off him. Massive vouch once again. Best of luck with your shop. I'll be coming with a big order next time.

I hired three graphics designers before him to complete work for me, and none of the three even

finished the work. I opened one scam report it was so bad, which isn't something I enjoy doing. But when it comes to Designer, from the start I didn't have to worry, and here is why.

1. He was extremely available, and responded to my questions in a reasonable time.
2. He took the time to truly understand what I wanted, even though I can be picky at times he never once showed signs of being annoyed.
3. His end-product was of the highest quality, and literally only needed minimal content adjustments.

I HIGHLY recommend Salient Designs, and I will continue to use him for the foreseeable future.

Looks like you get too much inspirations for some of your designs.

<http://jackietrananh.com/portfolio.php> - original

<http://salientdesigns.info/portfolio/social-wrench-thread-designs/> - his take

Using inspirations to come up with your designs is great. Nothing wrong with that. However, I can call this pretty much a blunt rip off. I cannot imagine what other works you've "took inspirations" from.

Not to mention your shop name and your portfolio was inspired by:

This guy...what can I say about him and his designing skills?

PHENOMENAL. EXHILARATING. STUNNING. ASTONISHING. AESTHETICALLY PLEASING.

The list can go on forever. Designer has done so much work for me it's unreal. Every time I order work from this guy, he's just so damn quick in delivering the work it's crazy. He is always willing to show you what he's doing along the way to ensure it keeps in tune with that you had in mind. He will also make amendments if it's needed and is overall just such a friendly guy and from all the orders I've done with him, we've become good friends and I'm glad I ordered with him the first time.

The aesthetic aspect of his graphics work is just amazing, he blows me away every time. I imagine what I want something to look like before placing an order and when I get the completed work, it's 1000% better than what I imagined. There is no single word to describe Designer and his fantastic work, there really isn't.

Buy from this great, amazing guy. You shan't regret it!

Awesome designer in my views though I've not dealt with the user. I might be needing your services soon ?

That's correct. I bought a new domain and I still have to set up my VPS to host my websites.

If you need any specific examples, let me know and I'll send you those.

Just a heads up:

I've set up / configured a new VPS to host a few websites.

I have a few things I'm working on, once those are done I'll design and code a new website to display my portfolio.

Just to be clear; I'm not available until I've updated OP with a link to my new website and an updated portfolio.

Stay tuned.

I'll try to get as much done this weekend.

=====

Update:

I have designed and coded most of my new website (just the portfolio), hopefully I am able to finish everything by the end of the week, but 2015 is coming up, so who knows what happens.
I'll be quite busy.

Thanks for doing business. I'm glad I could work with you.

I have relaunched this graphics shop with a new design. I may tweak a few things along the way, but I'm ready to rock!

Send me a private message, add me on Skype (salient.designs) or leave your message on this thread. I'll be online all week.

I rarely leave a vouch for any service, but Salient is an absolutely fantastic designer. Works quickly, easy to communicate with, and produces a quality final product. I enjoyed working with him and recommend him to anybody :)

I am off to bed. There are some large projects coming up, but thread designs are 20% off for the next 24 hours.

Send me a private message or post on this thread and I'll get back to you when I wake up.
