Thread: [Free Website Landing Pages/Niches \(Great for CPA!\)](#)

Techsmith - October 29, 2013, 9:00 pm

So I found these Landing Pages on another forum.

I recently shared these on FI as well, but I figured maybe some members here could use them as well.

These are just simple sites, but you could easily monetize them in some way.

For these you WILL need a hosting account, doesn't matter if its a registered domain or a sub-domain, as long as you can upload files to the root of your website folder, your can use these. Hopefully someone can find some use for one or some of these.

These could be really good if you go about it right.

Like maybe put a content locker/widget on the index.html so they have to fill out a survey, share on FB/Twitter etc to see the page, use your imagination!

I take no credit in making these Landing Pages, just in sharing them.

Hopefully some of you can get some use out of them.

if anyone is interested, I also have these Landing Pages/PPD Niche Sites, and these include everything you need to upload the files to your hosting site and make a nice looking site.

Be sure to edit the index.php/html if there is any download buttons on the page. If your interested in any of these, PM me.

I didn't "steal" them, lmao.

I plainly said I did NOT MAKE THESE!

I did not know who made them, I just found them, on another forum and it wasn't your crap, so calm down.

Please learn to read before attempting to reply.
