I will write your eBook in a professional style using perfect spelling and grammar for either a certain amount of shares OR a fixed price.

I do the covers, contents page and such for free. Any book graphics are also done for free with a 6+ page book.

Cheap prices. Excellent quality.

I do not specifically know the methods, but monetising is mainly what gets sold.

I have had two possible clients approach me and will start working as soon as I receive a method list. Covers have been designed for one of the clients.

Thanks for the vouch, we'll have to see about the writing style though.

My designs are professional and neat, I don't overdo it but they look neat.
