Hey guys so here i'am back in this section with another great bragging right.

EDIT: here is a link to my paypal transactions and paypal emails: <http://prntscr.com/215arq> & <http://prntscr.com/215bh8>

I made a status about 2 weeks ago saying i manged to get my -\$70 paypal balance to \$0 after many many months. I also said that i was looking for ways to make some money and i did that indeed.

Today i managed to make £110 which is roughly \$176.77 in the space of an hour.

£90 on paypal and a £20 giftcard voucher on Amazon, this is great because not only is Cod: Ghosts coming out, but i have the munchies so imma go get some food. Maybe order new shoes idk.

Peace <3

Congrats man! Is this a public, private, or available method? If you can recreate that every day for a month you'll have \$3,000 smackaroos.

Nicely done, I really wanna learn to make money online but I haven't got the skills or patience to make methods. And all E-books are shit haha.
