Thread: [OG Pastebin Accounts](#)

[\$(5)\$] - November 2, 2013, 12:54 pm

I used to have this thread open back in 2013 for the same purpose, providing the community with free OG Pastebin usernames/accounts.

This is a similar service, however I am providing the entire account including the disposable email address, the username, and the password to the accounts.

The purpose of me doing this is to give back to a community that has provided so much to me, personally.

This thread has been modified and is now for upgraded members only.

Right now I have the following usernames:

- hospice
- respite
- respectable

I will continue adding more usernames to the list as I run out. (if I choose to continue doing this)

These are going to be provided at a first-come, first-serve basis.

I will try and keep everyone updated in a timely manner as they are given out so there is little-to-no confusion.

The accounts preference and shrub are now gone.

I have sent the information to the two people who requested them.

I have sent out usernames to everyone who posted in time.

Thanks for participating. This giveaway is now over as I do not have anymore OG accounts at the moment.
