I messaged this youtube a couple of months ago asking to buy it and he said it was not for sale nor would it ever be, Don't think this is the legit owner.

Not to mention one of the best songs ever written, which is why I'll offer \$60

D????????????????ark - November 4, 2013, 10:44 am

Would NOT deal with this member, added him on skype offering a real offer none of this \$60 stuff, its worth way more.

He first gives me fake info, password "Puppies4321" etc, when thats not letting me sign in.

Then when he does give real info I get in, just as I am about to pay I check one last time, now im logged out, pass has changed and he has all my secondary info changed.

Tried to get the better of me, lucky I checked before hitting send.

Well, I'm still interested in buying this YT, whoever has it. xD

Obviously - November 4, 2013, 11:39 am

I still want this YT, but now this just looks way too complicated.

People were offering \$20 and \$60 and stuff. I would've payed way more. Oh well.
