Thread: [Updated Thread | First Time Using PPD | Already made \\$70!](#)

'Ryan - November 3, 2013, 4:16 pm

Well today was my first time using PPD, I have never really been interested in it but I noticed something and basically turned it into a niche. I made a thread earlier about making \$6 because I was freaking out! In the past 5 hours I have earned \$70 on Sharecash with just one Niche!

I haven't spent any money investing either.

Any tips for me?

Nope, didn't buy a thing. I have uploaded about 6 videos and each one has gotten hundreds of views in minutes. I have gotten over 6k views today, all real.

Is it related to gaming and did you use your own videos?

Completely white-hat I see? You were just saying that your videos kept getting taken down.

Seems like you are messing up your story

Not sure why they're getting taken down, but it's white hat.

So I take it you are not selling the niche anymore?

Nope, I got fucked over by my school work and Drivers Ed. I know don't have any time to do this and will have to sell it sadly.

I wish I was able to get this amount of money. I have always sucked at PPD methods... I am happy for you that it worked out. If you ever are in a generous mood though, please feel free to let me know ;)
