User profile <https://hackforums.net/member.php?action=profile&uid=1175995>

Hello everyone, im in a fucked up situation right now. the user stated above has fucked me over. He has paid me 400\$ with a stolen paypal account and caused my account to get limited and also a chargeback.

Yesterday the user Syke. made a thread asking for someone to hold his paypal funds. i messaged him saying i could help and after that we started speaking on skype. He hold me that he has already found a guy to hold his funds and asked me if i wanted to earn some money. I said yeh why not user seems cool but actually the cunt had other plans. He said i will send you 500\$ via paypal so you can buy runescape gold from this website. <http://runescapegold2007.com/> I said ok cool.

He sent me 400\$ using a Paypal account registered under the name "Ali"(last name blocked for obvious reasons.) I told him that i will refund the money and he should add a note saying "Already received what i purchased and im satisified" to avoid chargeback. He sent me the payment again with a different account this time that was registered to the name "Richard" i was like hmm feels sketchy but didnt follow my instinct. i went on to buy the Runescape gold that he wanted and when i tried to pay for the coins i got an error on paypal saying "Payment cant be sent right now" so i was like fuck i know whats happend.

I went on to paypal and noticed that i was limited and my account was under investigation for fraud. I have sent all the proof like id and shit to paypal and waiting for there answer.

I just don't want anybody else to be fucked over by this dick head who is ruining shit for me.

Except that doxing other members is not allowed and can get OP banned.

Doxing a skid doesn't changes a god damn thing - it just makes you look worse.

It's not like he can get ip logs in order to prove that he was the actual person behind all this crap.

L?c???? - November 4, 2013, 10:44 am

Wow, paypal would really close your account for something you had no control over?

Wired? - November 5, 2013, 6:38 am

Did you try and talk to paypal and settle it or did they just close it without you being able to do anything?

I will never accept large amounts of money from shady people.

Peredur - November 5, 2013, 6:44 am

I don't want to get on someone's nerves here, but why on earth are you guys still using paypal to conduct business on a hacking forum ? it is bound that eventually alot of you will get scammed by fraudsters. Whats wrong with Bitcoins / Perfect Money, or even WMZ ? If the person wants business, they will get whatever currencey you take.

Mohatu - November 5, 2013, 7:20 am

He's trying to buy BitCoins for PayPal now.

False, doxing other members is allowed but posting it on here isn't allowed.
But doxing will gain you nothing unless you're going to call his parents.
