Thread: [Scammed By Puppies = UID = 2025980](#)

SocialBlade - November 4, 2013, 12:08 pm

HE KEPT CHANGING THE ACCOUNT PASSWORD SO I JUST CLOSED THE YOUTUBE ACCOUNT ?

This guy called Puppies just scammed me for my YouTube account called 'Imagine'

His profile: <https://hackforums.net/member.php?action=profile&uid=2025980>

I had a thread saying I was selling 'Imagine'

Thread <https://hackforums.net/showthread.php?tid=3843865>

Brief Story

He Messaged me saying he wanted to buy it for \$200 and said I he wanted to me to send a message to a YouTube to show proof I had the account.

I showed the proof and I asked him for his skype and he replied saying I rather do it in the pm so I said send the money to my paypal what was 'FusionxDGx@Gmail.com'

he said "I'm not going first because your rep is low" so i sent him the password what was 'Puppies4321' he couldn't sign In(what was a lie because he changed the password), so I reset the password because I couldn't sign in and sent him the new password what was 'Hereisthepassword' he took long saying I need to make the account secure. Out of the blue he said you tried to scam me and he took the account.

(<https://puu.sh/58Nwy.png>) Noticed in the chat he said I'm making it secure that means he removed all my info(including phone) and + OG Pass got patched and unlinking gmail so how would I get the account back so quick?

(<https://puu.sh/58NEC.png>)he said not the real email and pass see he knows he signed in the account then how would he know it was the real one?

Ask anyone who comment on the thread knew how my background and icon was because it wasn't like that.

Background check he fucked up big time PROOF OF his skype name: <https://puu.sh/58O9t.png> and Search his skype and this shows up: <https://puu.sh/58Ofu.png> and His OWN PROOF that's his name: <https://puu.sh/58Onk.png>

He is trying to put this into this now (<https://puu.sh/58OO4.png>) but look <http://youtu.be/NkJ2gcv9aJs>

ANY QUESTIONS NEEDED JUST ASK.

Thanks to GanizFX for showing me what to do

I don't think you should include his PP address. I'm sure that that could potentially break some sort of rule. Also, you spelled IMAGINE wrong in the first bit. Not convinced that a great member like Puppies would scam, but I will be interested in seeing how this plays out.

GanizFX - November 4, 2013, 12:11 pm

This seems legit to me. Did a background check and it came off as he's scammed before and has impersonated other HF users in the past. Just Google: davidmurphyawd scammer - It will come up. :)

You won't believe me because of this so called 'Rep' it's so 'miss leading' I've been here for just over a year now and look at my history nothing bad and I still have 1 rep. ?

Thank you. That's the sort of replies this guy need to hear. Justice needs to be served.

Evidence is sufficient for me. You claim he tried to scam you.

Yet the premise of the scam doesn't make sense?

He wanted you to send money, yet took his account back before the money was sent? How does that make sense? He would of course wait till he received the money.

While the premise of your scam makes sense...

You get a youtube account then claim the guy is just a multi accounter using photoshop and inspect element, neither of which are true and both of which he can prove.

The skype convo's overlap so it's the same skype. The skype that has previous for scams.

I don't need to rep you i don't give a fuck. Just clearly you are the scammer here.

When I get L33T. I will rep you sir.

Blakey - November 4, 2013, 9:38 pm

Two scam report's against each other.. To be honest why would someone scam without getting the money..before recovering an account - that would just be stupid. I believe that puppies is just targeting member's with low rep and trying to turn it around to make it look like these member's are scamming him. Rep shouldn't be everything on hackforums and we shouldn't always assume that these 'Upgraded' member's are legit etc.

bobo5555 - November 13, 2013, 9:31 pm

This is a very interesting thread im going to post here so I can come back watch the outcome.

Neal Caffrey - May 24, 2015, 5:34 pm

Just ing this because it seems like he's scamming again. And because his replies on this thread were insufficient. :)
