Thread: [Bat Botshop - HQ Installs/Updates/Loads - Starting 4\\$/100](#)

**Bat™** - November 6, 2013, 7:20 am

Note : I'm not accepting PP atm, so don't ask me about it. Thanks :)

I am here to provide you quality installs and not some shitty ones. The bots come directly from my exploit pack and through spreading. The bots are very HQ and not used. You won't get anything but quality services from us and we assure you that. So this is what I strive to get you.

## Installs/Updates/Loads Prices

- You are allowed to use your own direct link or my private file hosting for free!
  - File size should not be greater than 1 MB if you want to receive most of your bots but there are no guarantees since everything depends upon your file.
  - Use C++, ASM, Delphi, VB6 crypters if you want to have a good execution rate but .net is also supported.
  - If you need geo-specific loads please contact me in advance and prices for these vary than on the thread. Minimum amount for geo-specific is 500 ATM!
- Need any more ? Contact me (Details given below.)?

## Payment Methods

PayPal

Perfect Money

WMZ

BTC/LTC (I use preev.com prices for BTC and btc-e for LTC)

## Contact

PM

Jabber - bat@exploit.im

## Terms of Service(TOS)

NO REFUNDS. Period.

You are paying for what I execute on, not what you receive. Don't expect much from a shit crypter even if you're 0/35. I WILL NOT SEND MORE THAN ONCE, therefore check your file before sending me.

There are many reasons for the bots to go offline or die, your software might be bad. Please don't annoy me about it, get a more persistent file. I AM UNABLE TO BOTKILL, I DO NOT HAVE THE FEATURE, DO NOT BLAME ME.

I reserve the right to change my ToS at any time even without changing my thread.

I reserve the right to not to deal with anyone I don't want to.

NO BOTKILLING TOLERATED BY ANY MEANS (unless you buy loads ofc), YOU WILL GET BLACKLISTED FROM OUR SERVICES + A SCAM REPORT WILL BE FILED RIGHT AWAY!

Chargeback = Scam Report !!

## Frequently Asked Questions(FAQ)

Q: What are installs, updates, loads ?

A: Installs - I download and execute your link on my bots and load only like 4-5 files on the same bots to keep their quality.

Updates - I download and execute your link on my bots after which those bots are removed from loader and come to you. (This doesn't mean that these haven't been sold to other as installs but only like 4-5 times to keep quality of these bots.)

Loads - These bots come directly to you from my exploit kit which means they belong to you only.

Q: Do you botkill ?

A: No. We certainly do not and never will botkill our customers. That's my word.

Q: I have very low bots now. Why ?

A: The reasons could be numerous but if the bots are decreasing very rapidly then it's possible that someone has botkilled you but we will never ever botkill our customers. There are thousands of reasons for a bot to go offline.

Q: My file is 0/35 then why didn't i receive all the bots ?

A: 100% execution is nearly impossible even with a FUD crypt. Period.

[BAT recommends going with DIVERSE CRYPT for all your crypting needs.](#)

Thank you

That totally depends upon your bot but if its a good bot and your file size is around 500kb below  
and at the same time its FUD.

I think you will be able to receive around 80%-90% execution rate.

Let me know if you are interested in buying.

pmd you looking to buy mass bots.

Pm me asap

**Water Aura** - December 4, 2013, 6:45 pm

Not trying to trash sales but why is botkilling bad? Do you reuse the bots over and over again?

**Mouse?** - December 4, 2013, 7:02 pm

If they're installs, and you botkill, what's to say you didn't just get a new bot and you killed off his bot; OR you make it impossible for him to sell that bot because anything a person runs on that install will be instantly removed?

That's why botkilling is bad.

**Ralv** - December 4, 2013, 7:32 pm

Bat, PM'ed you few days ago still without answer. Wanna buy 100 loads for start, pay by btc.

Please, contact me. Thanks.

BUT THERE YOUR BOTS, not his anymore, logic please. ?

**#YOLO** - December 6, 2013, 1:45 pm

Be a little cautious. I wanted to buy 600 installs, and he only had 300 left, so he asked for around 0.012 btc for 300 installs. I paid him like 0.0129, and he said he only got 0.010. I paid the transaction fee, don't see how this is possible. He said he could give me 250 bots, which was fine. I started with 25 bots, and never really got past 40...

When you send btc,yiu have transaction id.Put that id on bkockchain search bar and you will see

how much you send or he received.

Well, if I wanted to scam I could have asked money for full 600 and not 300. I even gave you the screenshot of how much I received. If you didn't get past 40, you could have told me ?

Pm me if you want to get this resolved..

Installs aren't your bots. They're everyone's technically because they're supposed to be shared so if you botkill, you're technically stealing.

**Original Gangster** - December 7, 2013, 5:43 pm

I would like to buy the smallest amount of installs to see if my rat is working then I will buy Loads.

**Spyware** - December 7, 2013, 5:45 pm
