The first thing I found great about DoSBoX is the amazing and simple GUI. The GUI of Boxnet is very appealing and a great pleasure to use. I had no problems finding my way around and the visuals were great.

[img]http://img214.imageshack.us/img214/4854/41787582.png[/img]

Moving on, lets look at the power. Now, he said it only has 1 shell and I can only attack up to 60 seconds because I have a review copy, ok, alright that's fine with me. I wasn't expecting much with

just one shell when the paid copy had much more - but...

[img]http://img219.imageshack.us/img219/3996/capturevf.png[/img]

Warez-bb. It took down warez-bb. I was amazed at the power of this program. With only one shell it can take down warez-bb, imagine having more than one shell...

Overall: Great buy, highly recommended! Very powerful and just overall great!

(Apr 25, 2010 01:27 AM)Coyney Wrote: [\[CITE\]](#) Yeah Sorry For the Late Reply I was trying to figure out how to get an ip of a website.

So Here it is:

The GUI is great and I like the transparent background, he said it can take down ware-bb.org so I thought I might try and take that down, after a few minutes of searching on how to get the ip on a website (yes Im a noob) I finale found out and it took the site down with ease. Excellent Program and for \$15 you get Unlimited Updates So It's wonderful!

NOTE: If anyone tries to scam me out of this It's Hardware ID thus I can remove you any time. Don't try and fuck me over.

NOTE: If you're removed from this program or don't like it you WILL NOT!!! be refunded.

Can I test it?

nofear1999 - April 25, 2010, 12:55 am

No I sent conoy a link.

Funny thing is, he went offline right after I sent him it.

If he did try and get it without a vouch he fails because the beta can not DoS over 60 seconds and it has no update plus it's HWID.

????? - April 25, 2010, 12:56 am

K well once i get paypal (in 3-4 months) cuz i get my own credit card.. will buy.

He came back online and also M0D3RN H4X0R will be reviewing this product aswell. Both HWIDs have been activated for them.

nofear1999 - April 25, 2010, 1:27 am

Thanks for the reviews everyone you can keep your copy and it won't be removed because I'm nice. Quoting it now.

@Coynoy, it's only a 30% transparent, rest is black.

HardWareGuru - April 25, 2010, 1:32 am

just thought I'd tell you; warez-bb is like THE EASIEST site to take down. It goes down with less than 15 dosser bots, or a shell at 10k or so pps...

GI selling though

????? - April 25, 2010, 1:33 am

Can I be added, you can trust me with a full review in honest opinion.

nofear1999 - April 25, 2010, 1:39 am

Not really can trust you as you have 50 posts. When you pay I can trust you.

@ Sehcura, true this bot hits 20k PPS peak. I've measured it on several occasions. I gave them warez-bb because I only tested it there.

I just wanted to give them a show that it will work.

When it has more bots it will actually pwn. I'm looking into purchasing ones with atleast 50k PPS after I get some sales.

????? - April 25, 2010, 1:42 am

Look, you said that its Hardware ID which means you can just cut me off. You have my word that Ill review it for you. But, if you don't trust me because I don't have like 3000 posts and rep then sorrrrryy.

nofear1999 - April 25, 2010, 1:44 am

I don't trust anyone below 300 posts and positive rep.

Sorry, you need to pay first.

????? - April 25, 2010, 1:49 am

Can we come to an agreement, that I can do something in return besides give you money as I cannot hold my own paypal account yet. And no, Im not going to return with 300+ posts so you can automatically accept me as trusted. Like whats different from me and someone with 250 more posts, this is completely bias. Sure I understand, but sorry I would have 300 posts like the next "trustable" guy but I don't go around spamming and posting on peoples threads to gain counts. Its ridiculous.

I wouldn't scam you or anyone on HF anyhow, Im not a type of person that wants a bad name. Im a fairly new member, but thats besides the point. Just give me something I can give you in return..

nofear1999 - April 25, 2010, 1:52 am

You can always register a PayPal and make some sales (unverified PayPal) and change your address (use your legit name) and verify it later.

Blue Username - April 25, 2010, 2:35 am

do i have 300 posts yet.

Oh.

Nope. Never mind.

I shall probably buy this in the morning. I would really like to be able to test it to see if it would fill my

needs or not.
But its ok if not.

nofear1999 - April 25, 2010, 3:09 pm

I will let anyone have a 5 minute trial.

Also: Once I get some rooted sites that I can actually upload MY script (these assholes wouldn't let me use mah script D: I had to use their shitty one)

I'll be adding a port function.

The port function will be useful for hitting off a specific port.

Also if you can donate 2 or more (~15k PPS shells idc if it's 14k or even 100k it just has to be around 15k or higher) You'll get a free lifetime copy however you have to use mah script.

nofear1999 - April 25, 2010, 10:11 pm

BUMP Added another shell. Hits 20-25k PPS

nofear1999 - April 26, 2010, 12:13 pm

BUMP Added yet ANOTHER shell & added a more tab.

nofear1999 - April 26, 2010, 10:26 pm

i love bald girls - April 27, 2010, 8:04 pm

Ooohhh, very tempted to buy this.. How many customers so far, cause I know once you get too many shells start dieing and stuff :(. Also, I will buy 100% if you can just prove that you can take down a small teachers site (lol). Sorry if that is too big of an inconvenience to you.

nofear1999 - April 27, 2010, 8:18 pm

I have one customer. One shell died already but that was because the person was so anal about checking his FTP.

llllllllll - April 29, 2010, 10:34 am
