(Oct 6, 2013 01:56 AM)Courage Wrote: [\[CITE\]](#) A big vouch for Homi has a really nice product, very easy to use and quite cheap.

(Sep 29, 2013 03:08 AM)?XilluX Wrote: [\[CITE\]](#) I had the luck to test this program and I am really impressed. It is a really stable and well working keylogger and this for only 10\$!

It will stay FUD for quite a long time and after that you can use a crypter if you like.

(Sep 29, 2013 07:56 AM)Danish Donut Wrote: [\[CITE\]](#) Huge vouch, this man does not only deliver a awesome product, the support is nothing less than fantastic, i bought his keylogger at the very first version and i was noob. He wrote a whole guide about keylogging and how to set up fps just for me. Homi is defently worth trusting just as well as his product. Huge vouch :)

(Oct 20, 2013 07:14 PM)HBK Wrote: [\[CITE\]](#) Vouch for him. Nice guy and helpful through buying it.

(Dec 23, 2012 03:38 AM)H3X4G0N Wrote: [\[CITE\]](#) Great keylogger! Absolutely wonderful, I'm currently keylogging myself to test the keylogger. It's great how the logger runs as taskmgr, you'd never expect it!

Built-in file pumper is also extraordinary.

Best part I'd say is no portforwarding, just setup an FTP account and you're set!

Homi is super HQ, helped me out with everything I needed.

Who is the other user who purchased and did not vouch?

Just curious as to why you're only selling a limited amount of copies as well?

Not trying to sales thrash by any means but it just seems rather fishy to me personally.

Most of my users do not have reputation to post in this section, that is why they don't vouch.

I only sell 10 copies of one version because this way my customers can enjoy long FUD time without worrying about updates and losing their victims.

I hope this will clear things up, if you still find something fishy please let me know so that i may clear everything :)

Thank you

I bought the other copy. Took a little while to deliver the actual product but all in all fantastic service. Still an issue with uploading logs, but since I am new to this Homi is still helping me set everything up.

Edit:

Excellent we got it working within a few hours! great program no issue whatsoever.

Huge Vouch for my friend Homi. GLWS.
