

Forum: [Hack Forums](#)

Thread: [~~NEW MEMBERS READ BEFORE POSTING~~](#)

MrTing - November 11, 2013, 6:29 pm

I hate to have to make one of these after others have, but I feel like a thread like this needs to be brought up once in a while.

Welcome to the wonderful world of

[img]http://i4.minus.com/jeqjGo.png[/img]

I am sure there are many reasons you have come here. Let me help you with some of them now!

Facebook / Twitter / Tumblr

There is no "hack" to getting into accounts. However, there are many ways to get into them via indirect methods.

1. RATs (Remote Administration Tools)

<https://hackforums.net/showthread.php?tid=1921760>

<https://hackforums.net/showthread.php?tid=3851366>

2. Social Engineering - Simply tricking the user into downloading something or revealing personal info.

[http://en.wikipedia.org/wiki/Social_engineering_\(security\)](http://en.wikipedia.org/wiki/Social_engineering_(security))

3. JDB (Java Drive By)

<https://hackforums.net/showthread.php?tid=3210579>

<https://hackforums.net/showthread.php?tid=3841800>

4. Many more, just look around the tutorials section.

[Hacking Tutorials](#)

Hacking Websites / Servers / Minecraft

Hacking websites and forums may seem extremely hard. This is because you are a beginner! Like accounts, there is no easy "hack," however, there are methods to hack with. Some methods include:

1. SQL Injection

<https://hackforums.net/showthread.php?tid=3468633>

<https://hackforums.net/showthread.php?tid=94738>

2. Shelling (With SQLi)

<https://hackforums.net/showthread.php?tid=3373618>

<https://hackforums.net/showthread.php?tid=2010089>

3. XSS

<https://hackforums.net/showthread.php?tid=2878760>

<https://hackforums.net/showthread.php?tid=3739716>

If you feel you are unable to learn, you can always make a request here:

<https://hackforums.net/forumdisplay.php?fid=48>

HOWEVER before you do, make sure you keep these things in mind:

1. Most experienced members won't help you.
2. Lying will not get you anywhere.
3. Be sure to post why you want it hacked, and a good reason that goes along with it.
4. Do not be rude, do not be demanding.

DDoS / Booting

If you need to be able to boot someone offline, there are a couple main options for you.

1. Buy a booter from the marketplace
<https://hackforums.net/forumdisplay.php?fid=232>
2. Get a VPS to boot with yourself (I can help if needed)

LOIC AND HOIC SHOULD NOT BE USED

For those that have a minecraft server just saw this posted:

<https://hackforums.net/showthread.php?tid=3832546>

If you have any basic questions, feel free to PM.

Thank you for taking the time to read this!

~Thread Being Updated When Needed or Suggested~

Realing - November 11, 2013, 6:35 pm

Thanks for this helpful thread. It will save me a lot of posts. I've seen a lot of new members in the "beginner hacking section" or "requests for hacking" asking if someone could hack into a social network account, such as FaceBook, and you explained it very well in the thread, that it's impossible unless you SE, RAT, the victim.

de morte hominis - November 11, 2013, 6:37 pm

Good job Deception-X maybe this will bring more HQ post without people always making LQ threads asking for stuff.

MrTing - November 11, 2013, 6:37 pm

I noticed a lot of those myself. I wanted to make sure this was a high quality post though, not a rant, and i think I did that.

SupreemJuggalo - November 11, 2013, 6:40 pm

a logical member finally making sense .thank you for the post!

Vexane - November 11, 2013, 8:28 pm

Love to see this thread!

I haven't seen any others that are more HQ than this one.

If you could've made this when I started out I would literally walk to your house, and kiss you on the forehead.

MrTing - November 12, 2013, 6:52 am

Glad to know that haha. Just trying to help some people out.

?Jeff ?The ?Killer - November 22, 2013, 5:46 pm

I was curious at your signature and then I've read this. This is a pretty detailed beginner's thread. Nice one.

Tomthetom00 - November 22, 2013, 5:55 pm

Thanks for this,I hope itll help newcomers.

Bothermenot - November 23, 2013, 2:55 am

Hi, I also suggest for beginners to purchase a Crypter, such as Data Scrambler. Which is a very simple yet powerful Crypting tool, for a cheap price of \$20 a month! Here's a link to the thread:

<https://hackforums.net/showthread.php?tid=3780808>. Hope this helped.

K5ypt1cFauX - November 23, 2013, 9:15 am

Thank you this was a good read and i understand what to ask and how i should. Kind of a n00b but im learning more and more everyday thanks to this site.

Wolfz - November 23, 2013, 9:45 am

Good thread for new members and newbie, thanks very much.

Mario™ - November 23, 2013, 9:55 am

Thanks for this thread i really hope The will help HF

Mindinis - November 23, 2013, 10:02 am

Thanks for this, it's really great thread. :)

reaand - November 23, 2013, 10:03 am

Thanks for doing this, This save a lot of thread by new members

Gambino™ - November 23, 2013, 10:03 am

You forgot the part about not being skids lol.

Zink - November 23, 2013, 6:15 pm

Finally someone that actually trying to help with these new members and there grave digging moments. Great Job

Dr.Rockzo - November 23, 2013, 6:58 pm

Don't they make free Crypters I believe my uncle used to have one and i never heard about him paying?

Buzzle - November 23, 2013, 6:59 pm

Looks like a good thread, if people who are new to the forum actually reads it, it'll defiantly be useful.

B?STILLE - November 23, 2013, 7:00 pm

Thank you for making this helpful thread for others!

Osiris1717 - November 23, 2013, 8:04 pm

Good share, will help them kids who make those 'can someone plz hack a facebook acc plz' thread.

3dVision - November 23, 2013, 10:11 pm

Thank you for bringing this up, it's really helpful to some people. Like me ?

MrTing - November 24, 2013, 8:50 am

Glad to see that this is helping people!

MrTing - November 24, 2013, 9:24 am

I'm sending you a PM with a couple threads and some accounts.

Sbud - November 24, 2013, 9:29 am

This got some useful stuff right here. I've followed the RAT part ;)
