Why only 128bit encryption? The other specs are nice so why ditch on the (arguably) most important part

I plan on adding support for L2TP/IPSec and OpenVPN in the near future. PPTP only supports 128-Bit encryption through MPPE and password authentication through CHAP.

Can I please have the vouch copy? I will rate it for sure.

Lifetime vouch copies have been extended to another 5 users. Please post or PM me.

Cmd Prompt - November 12, 2013, 12:54 pm

Okay... Here is my review.

The DDoS Protection is very good from what I can tell. I had a friend test it and it affected nothing. The speeds seem to be very consistent and I didn't test this much so don't hold me to that. I had the ability to test to see if I could indeed connect to xbox live via shared connection and I successfully connected, but with a NAT error that made my connection moderate. Support is great, there was instant setup from the seller, and he treated me like I was an actual customer. Even though I was getting the vpn for free.

Overall I give this VPN a 9/10 And I will say that I 100% agree that the service is worth the price that he is charging.

Weebex - November 13, 2013, 3:54 pm

Holy crap! This is freaking fast, tested it by going to google, got there in 2 seconds!! Amazing! Sadly, HF blocks IP :(

°CuddleyDeath - November 13, 2013, 3:57 pm

Absolutely excellent VPN. It is the best one I have ever used by far.

Pros:

- Excellent connection speed
- Strong DDoS protection
- Unmatched connectivity and reliability
- Best value you're going to find in a VPN
- Secure connection (This is huge for me)
- No activity logs are kept

Cons:

You're reading this so you obviously haven't purchased it yet, what are you waiting for?

Gizmo - November 13, 2013, 4:02 pm

Could I've a vouch copy? I've just pmed you.

Works great! Very good connection, smooth high speeds and great seller, a very good person to do business with. I agree on the price, very cheap for what you get.

Realing - November 13, 2013, 6:01 pm

I received a vouch copy of this virtual private network, and what I can say is that, the ddos protection is very good, and the VPN is extremely fast, just the way I like it. It was very easy to setup, it only took me about 2 minutes. Basically this VPN is worth its price. Vouch!

BGodBilly - November 13, 2013, 6:04 pm

Very good VPN especially for the price. OP is very user friendly and even helped me set it up. Connection speeds are much faster then I expected and my friend attempted to hit me offline but couldn't so DDoS protection is solid. Overall a great VPN. Thanks Super!

Romping - November 13, 2013, 6:14 pm

I would like a voucher for the vpn, thanks.

Amazing VPN.

Real DDoS protection, super fast download and upload speeds, no logs and encrypted.

Vouch, vouch, vouch, good luck with your sales.

Doctah - November 14, 2013, 8:02 am

I'd like to grab a vouch copy if possible, I'll write the thorough review for you, and probably buy a package after if it's well worth it.
