Thread: [\[DELETE THIS THREAD\]\[CLOSE THIS THREAD\]How to sort out a member with out getting banned? HELP!\[CLOSE THIS THREAD\]\[DELETE](#)

texeon - April 25, 2010, 7:51 pm

Okay, i'm not gonna say who, but he has got pics of me that i don't want him to have anymore, wht do i do?

I just want to delete them from his comp, but i like HF so much, i don't wanna get kicked off.

I can't move on, as i was stupid enough to give the pics, and i honestly don't want him to have, as he lies, and is creepy apparently, another member was being manipulated to hook up with him.

Any suggestions?

PLEASE HELP!

You can't do anything, really. Move on maybe?

xTiNgUiSh - April 25, 2010, 7:53 pm

why would you get kicked off?

Nima304 - April 25, 2010, 7:53 pm

I agree, just move on.

i really want to get rid of, what if i go through team viewer, and convince him to delete?

Would that be illegal?

xTiNgUiSh - April 25, 2010, 7:55 pm

You need to go into more details of your problem because all we know is that he has pics of you and you are getting banned explain more please.

I'm not being banned, i will be banned if i try to get into his comp, and delete them, if he finds they are gone, he'll probably know it was me, as they are pics of me, and nothing else will be touched, then he will report, will using team viewer work to convince him to delete, as they are his actions?

texeon - April 25, 2010, 8:08 pm

I'm going to go into team viewer and say i'm gonna turn the pics into a collage for convenience, then i'll copyu and paste them onto my comp and then delete, that doesn't count as hacking, and it should be allowed, as it is a privacy and concession issue for me, so if i want them gone, i should be able 2.

I just need one last answer saying if team viewer is allowed to be used for that?

I need to know that, as soon as this is resolved, i'm deleting the thread.

nb4lck hope you got it resolved

Kotei - April 25, 2010, 9:40 pm

Why did you give him the pics in the first place if you don't want him to have them?

We don't care if you hack his computer, unless you steal his HF account, or infect him over HF, then it's not against rules.
