Vouch for my buddy Wes. Legit user and great e-book!
Don't hesitate to buy for the cheap ass price of 5\$

GLWS

Scribit - November 15, 2013, 5:32 pm

Was able to get a vouch copy from Wes.

Overall, I'd rate it a 6/10.

The reason being, this method is extremely public, nonetheless it is worth the \$5 you'll spend.

???I?? - November 16, 2013, 5:16 pm

still 2 vouch copies left guys! PM me if you are interested.

Bing™ - November 16, 2013, 5:39 pm

Hello!

I am Bing and I will be reviewing [Lots of views! | Semi-AutoPilot | AutoBuy | youtube/website | \\$5](#) today.

It's an extremely quick reading but the author gives you everything that's necessary. One of the sites is more than known, but the one Wesley uses to maximize the potential of the views isn't public(I never heard of it) - It gives you 4 free VPS during 1 week. It's an obvious method, that you probably run in your own computer but with this, you have the chance to make it x5.

I believe the book is well worth the 5\$ since you can get 4 free VPS, and get lots of potential views with that.

Fresh Money - November 16, 2013, 5:40 pm

Vouch for this, it still works glws bro!

???I?? - November 16, 2013, 5:59 pm

Kn1gh7 - November 16, 2013, 7:02 pm

Vouch for my boi Wesley. Method is solid.

Quick update on my stats.

This e-book is awesome !

Buy it if you have the chance !

???I?? - December 6, 2013, 5:18 pm

To calculate the amount of views, do $\text{minutes} \times 50 = \text{views}$:)

No dude. It's $\text{minutes} \times 60 / 50$.

Dont false advertise now.

???I?? - December 9, 2013, 12:36 pm

Thats only true if you choose 50 seconds.

It's $\text{minutes} \times 60 / \text{seconds}$

- minutes = amount of minutes you have

- seconds = time in seconds your page is being watched per viewer.

sorry for the mistake in my older post, my maths is so bad >.<
