Would this work with radio stations? For example the "1000th" texter will win a prize?

I know from experience that my local radio station automatically replies to every text you send to their number saying "You are texter #XXXX"

so would this be able to receive replies?

THIS WORKS FOR EVERY SINGLE CARRIER. Unlike other tools you enter in your own gateway so you don't have to message me to add it. A lot are on the list but if its not on the list you can just google it and enter it in!
