Thread: [YouTube Account Creator Bot! FREE](#)

JuRx - November 17, 2013, 1:40 am

I'm giving away my youtube account creator bot.

Comes with a list of 1000 names, surnames , passwords , IPs.

Just simply pm me with the answer to this:

I'm a four letter colour , I'm the name of a famous singer and I have a three letter word inside me.
I'm mostly a feminine colour yet males wear it too.

Are you serious? Giving away a bot that creates 100's of YT accounts? There's no such thing, it's either fake or fake and with virus.

I also agree with Bing. Is this some kind of scam? People sell PVA youtube accounts for heaps now days.

It does work I will update post with a video soon or screenshots.

This does not make PVA accounts. Just normal accounts that can be PVA in the future

So once a mass amount of people gain access to these botted accounts won't they all just get banned?

Meh staff just close this, thought I could try and help out. Guess not.
