Thread: [Ewhoring with video vs without video](#)

Ewhoring can be done with or without the use of a video. I typically would suggest not to use one, and I'll explain why. Please note using video can still work and people can be profitable using it, this is just my opinion.

I find it easier to convince people as you don't have to worry about your typing not syncing or him noticing it looping certain actions.

Another reason is I find the payout to be greater because you can ask them to buy you a webcam (or school books if you want more) instead of just paying for a show. The good thing about asking for a cam is it is a perfect excuse on why they can't see you on cam.

It can be done but its better with VCW or Cam Rip

I have done both for about 3 years. I would have to agree I have been alt more profitable when using pics. Max for vcw was 50 an hour. They can't watch the same show twice.... But you can keep giving them more photos.

Tldr; agree with OP

Both works. When using a VCW it kind of makes the victim believe that you're a real girl, not a guy hiding behind the screen for money.

When NOT using a VCW, it can still work too. But after all, E-Whoring's success depends on the operator's skills himself.
