Thread: [\[TUT\] WIFI PASSWORD HACK\(N00b friendly, windows\)](#)

D3M0N3K1LL3R - November 20, 2013, 5:39 pm

WIFI PASSWORD HACKING

Tools:

Commview for wifi

Aircrack-ng

Download [HERE](#) <--(press it for download)

[Virus Scan](#)

Commview setup

1. Install Commview

PM me if you need help with installation

2. click the play button in upper left hand corner

3. Commview will start scanning wifi and sniffing packets

NOTE: INTERNET WILL DISCONNECT< CAN NOT USE WIFI

4. note what number wifi you want to crack is and set it to only sniff that number

6. around 10000 packets stop commview

7. save packets rightclick. SAVE PACKETS AS

8. export packets as .cap file> log> open(open the .ncf file)>export> wireshark dump

Aircrack-ng

1. Open Aircrack-ng NO GUI Aircrack folder>bin>Aircrack-ng NO GUI.exe

2. browse file and open the .cap file

3. select wep or wpa

4. press launch

Inginity - November 20, 2013, 5:59 pm

That isn't click-able mate. Maybe try. To Add a link to your text.

ok bro should be good, try it now, also i cracked commview so its full

iSyllex - November 20, 2013, 8:45 pm

interesting. Might just give it a try...

TheNameIsDevon - November 21, 2013, 2:07 pm

I think this may be a virus, look at his rep and he has been very suspicious

Squishedlemons - November 21, 2013, 2:12 pm

interesting i will really try this..

my rep is at -3 for spamming for pm.

Moon Rock - November 21, 2013, 6:22 pm

You need to add some working screenshots.

D3M0N3K1LL3R - November 21, 2013, 7:01 pm

I use ScreenCap it's a simple program that's a small file. Not hard to get

K5ypt1cFauX - November 22, 2013, 6:39 pm

Where is the Virus scan? you said you would post it yet i dont see it anywhere.

m4dh4ck3r - November 22, 2013, 6:50 pm

Give some credits please ?
