<http://www.newegg.com/Product/ProductList.aspx?Submit=ENE&N=100023021&IsNodeId=1&PriceMin=0&PriceMax=600&SrchInDesc=windows&name=Windows-8-Tablets>

There is quite a choice. It's really down to user preference.

I recently played with [this guy](#) and I can say that it runs pretty smooth. You can also add a docking station to it and use it as a laptop - coolest thing is that the dock has separate battery.

Slate Pro. You should be able to find it on eBay or Craigslist for \$500.
