Thread: [Simple Scantime/Runtime Crypter \[Free FUD\]](#)

Gringo241 - April 27, 2010, 4:20 pm

I would like to share with you my first fud scantime/runtime crypter.

- AES Encryption
- Done in VB.Net
- Works with Cybergate (That's all I have tested it on)
- Works with XP SP3 (That's all I have tested it on)

I haven't bothered with the GUI as I am just paying attention to the coding side of things at the moment.

Thanks, i will look into it.

It seems that the RunPE is a bit unstable on vista & windows 7

-mothered- - April 28, 2010, 2:27 pm

I'm having similar Issues with Cybergate. Nonetheless, I'll try a few different versions of Cybergate

and see how I go from there.

Cheers :)

Gringo241 - April 29, 2010, 1:56 am
