This user is a scammer/multi-accounter. He is previously Asylum (weird text) and has scammed me for a total of \$8 (I know, it's small.) and continued to DDOS me. Right now I'm tethered, so let's see the dumbass DDOS verizon.

Look in his older names

As you can see, in this thread he states his skype is "AsylumHax"

DO NOT DEAL WITH HIM.

Post any proof you have here and I'll add to thread.

IF you have much more proof, you could ask a staff member to chekc the ip logs (if he is a multi account his IP will be the same/close on both accounts).
