With this method you can get easily games and maybe gamecodes. This method is greyhat/blackhat but it works

This doesn't involve scamming other peoples or chargebacking

Vouch (Dec 1, 2013 02:00 AM)Twisted Fate™ Wrote: [\[CITE\]](#) Alright. I was one of the few who has received a vouch copy and I would like to say the following things.

The eBook is very nicely laid out, it has a lot of pictures and text underneath of those pictures to describe what you need to do, step by step of the way.

The method's morals would be questionable, some people might consider it blackhat while others might consider it a simple grey.

The idea behind it is very simple and straight forward and anyone with half a brain can use this method.

Good luck with sales, OP. (Dec 1, 2013 01:00 AM)Cookies Hacking Services™ Wrote: [\[CITE\]](#) I have received a vouch copy for this ebook and my review as is follows. This doesn't take a penny in investments and you don't need to buy it in a russian store.

You can at the same difficulty, this method is very easy and straight forward. The amount of games you can get per day is unlimited by the amount you want.

[Using the same vouch as I received a vouch copy from both members. It is the same method and Ebook bought resale rights from FreddyHD.]

I received a vouch copy from Ebook and I must say, I'm impressed. I have NEVER seen a method like this online and it guarantees you to get a game for free. It does not involve tf2 keys or steamtraders.com/any steam trading website in case any of you guys were wondering. Although there are a couple grammatical errors, it does not hinder the e-book. He mentions something you need (and he provides a tutorial on setting it up) and this "something" can be used for "other" activities too (not mentioned in the tutorial as it is completely white-hat). There are tons of pictures in the e-book which help make the reader understand it better. I rate this ebook 9/10 as it was truly a good read and can get you your money back asap! Good luck with sales Ebook.
