PlexJDB - The Ultimate Java Driveby Generator

I am currently hiring affiliates for my featureful Java Driveby Generator, PlexJDB. Every copy of PlexJDB is worth \$9.99, and I am willing to give my affiliates 30% of the profit per sale they make with it!

To get started, sign up at [Sellfy.com](#), and collect your affiliate URL from the link below which you will spread to people whom you want to sell to!

Affiliate Program URL: <https://sellfy.com/aff/AZ84JG/>

Please remember to tell them to send me their HWID and transaction info over at Hack Forums or through my e-mail (PM me for my e-mail, or check on the product's [Sellfy.com](#) product page for it). Otherwise, I won't be able to activate their account.

Just wanted to say that this affiliate offer is still up for grabs! Over the past month, there have been a total of 5 affiliates registered to PlexJDB :).
