Thread: [Can I pay someone to hack tumblr password protected blog for me?](#)

pineapplesalt - December 1, 2013, 3:59 pm

Hi, I know absolutely nothing about hacking anything, but I need to get into a private tumblr for a really important reason. If it is easy, and you know how to do it, can you tell me a step by step instruction or if anyone here is nice enough to do it for me, I will email you their log in email and the tumblr url. I saw a few threads earlier that I Love Taylor Swift charges \$3. I will pay around there or more if you need, for a hack into this one specific account.

I hope someone helps me, because I have no idea what I'm doing. I took programming in school once and I was the only girl, so all the guys always gave me their codes..so I never learned anything moderately close to coding or hacking or anything at all lol.

Also, if anyone knows how to hack a facebook, that's a plus. I'll pay extra for that. Can you guys reply this thread with your email so I can email you? I don't have a minimum 25 post requirement to send private messages. Thanks! PLEASE help me. Please don't tell me I need to teach myself how to do it and stuff because I am really bad at it and I tried but I just got too frustrated and quit. Help me pleaseeee?
