NOW ACCEPTING OMNICOINS!

ONLY A FEW COPIES LEFT TO BE SOLD.

Welcome to my thread.

I've admittedly purchased eBooks in my past and can confess that most of them are bullsh*t. You'll probably already have a premeditated opinion that this thread is bullshit too, right?

I'll assert that this method is brilliant. This isn't an eBay method that you'd see everyday. It's unique and isn't any of those windows key or beats headphone ones you come across on the Ebook Bazaar.

PROOF of my sales completed listings from just the past 24 hours:
(yes.. this is real)

INTRODUCTORY PRICE PAYMENT - \$15 of;

- BANK TRANSFER possibly.

- [BITCOINS \(0.015BTC, negotiable because of prices changing\)](#)

FAQ:

Q. Does this involve any typical eBay methods?

A. NO NO NO! This hasn't been sold on HF and is mega unique.

Q. Is this blackhat?

A. No. This is completely whitehat and legal.

Q. Is there any investment required?

A. Around \$5 should be plenty to get you started to make a few hundred a week, then you can branch out and make even more.

Q. Is there a chance I can lose money?

A. Simple answer, no. Long answer, no.

Q. Do I get assistance?

A. I will assist you all you want.

Q. Is this method autopilot?

A. To an extent, pretty much.

(I have entirely revamped the layout, thus improving the ease of use and overall too).

(Dec 3, 2013 08:09 PM)PP90 Wrote: [\[CITE\]](#) Quality 8/10

Quality of this eBook is pretty nice. It's the users first eBook, and he still has a few key points to learn when creating an eBook.

Ease Of Use 7/10

Personally, this method is not the easiest for me. Although in the eBook it doesn't talk about any investments, you will need one of around \$5-10

Layout 8/10

The user has updated the layout while I did my review. Pictures have been included, and in total it is now 5 pages.

Originality 9/10

Although I have slightly heard about this method, Lala has brought us the one of the most original methods on HF. If he (an lazy bum) has been able to make what he's making, you can too.

Overall 8/10

I'm giving this eBook a 8/10.This eBook is worth the buy, my vouch is with Lala.

(Dec 3, 2013 05:50 AM)Blakey Wrote: [\[CITE\]](#) I bought this method and will post a review about it. Please keep in mind that this is my strict opinion on this e-book and your's may be different.

Quality 7/10

The quality of information in the eBook was decent. It was straight to the point, It told you what you needed to do and how to earn money, although the author could add a lot more detail, I was needing to ask a few question's after I bought it to clarify a few things.

Ease Of Use 6/10

This method is easy to use, if you know how to use ebay you should be fine and on your way to earn some money.

Layout 4.5/10

Layout was poor, I did personally expect a better layout. However you're not really buying the ebook for the layout you're buying it to make money. I would suggest that the author update's it with some picture's and spreads it out a bit more in the future.

Originality 9/10

This method was one that I haven't encountered before, should definatly earn you some money even though it is another ebay method. I have not personally seen this on hackforums or any others.

Overall 6.5/10

Overall this method seem's to be worth the money that I spent on it and indeed should be easy to make money back. I've rated it a 6/10 mainly because I think a little more effort should be put into making the ebook a bit nicer and user friendly. On a last note if you do get stuck lala does provide support to help you out!

Side notes: This E-Book was worth the \$10 that I spent on it, should definatly be able to make more back then i've spent. You do need a invesment of say \$5.00 to get you started. I probably will convert some paypal to btc to buy this, I'll wait for you first.

You should probably say stuff like how original is it, how easy it is to read, stuff like that.

0_0_ - December 3, 2013, 12:21 am

Just sold one to someone. I hope he can do a review! Keep checking back there will be some!
edit: Chase was the guy, waiting on it now.

Cycloned - December 3, 2013, 6:48 pm

Is this method immoral in any way? Like it doesn't rip off other people right?

0_0 - December 3, 2013, 6:48 pm

This is not ripping off people Cycloned. It's selling at profit, of course, but in no way is it stealing or scamming. The buyer gets what they pay for.

#Derp - December 3, 2013, 10:15 pm

Argggg I can't buy I only have PayPal. Are you sure you can't make an exception just for me? I'm not a scammer or anything ^.^

0_0_ - December 3, 2013, 10:20 pm

I would love to man, but its for your safety and my safety that it is not done via PayPal. Too many current chargebacks from HF can lead to suspicion on both of our accounts if the money is sent, thats why I'm saving my PayPal for eBay approved payments only, so sorry.

But you can get an exchanger to exchange to 0.3 or around that, \$30 worth currently and trade then :)

#Derp - December 3, 2013, 10:46 pm

Alright. I'll buy it for WDC then. I got tons of that

nitty33 - December 3, 2013, 11:14 pm

Vouch looks very nice known this user for a while HQ

zomgkenny - January 16, 2014, 9:43 pm

Does this have anything to do with the following

AutoDesk (any form)
Window keys
Microsoft keys
Netflix codes
Spotify codes
mc codes
Some drop ship that basically only get a profit of like 10\$
beats
chinese wholeseller
SE'd items
