Thread: [5 Star's NRML/L33T Member Upgrade Contest #1](#)

5 Star - December 3, 2013, 8:13 pm

Hello HF,

Some of you know me as 5 Star, some of you know nothing about me. But I'm pretty much a quiet guy around here, I'm all over but don't post too much outside of the gaming forums. Lately I've seen some pretty HQ members around that haven't been upgraded to L33T/Ub3r so now is the chance for some of those members to get there.

I'll be picking ONE normal member and ONE L33t member to be upgraded, so let me know why you should be upgraded. Please use the following template:

1. How have you contributed so far/why do you deserve this?
2. What are your future plans to contribute?
3. Anything extra you wish to add?

RULES

1. Posts not using the proper format will be declined entry to the upgrade contest.
2. Please try and use correct spelling and grammar (I understand English is not all of our first languages)
3. Don't give up if you don't win. This is #1 out of the many upgrade contests I'm starting to do, so keep checking on my contest statuses.

End date is December 11th.

WINNERS WILL BE PM'D and thread will be closed upon ending.

So that leaves about one week for you to post to win.

Good luck to all and I look forward to reading your posts.

CONTEST HAS ENDED.

Thanks to all who tried and congrats to users [Ramon9585w](#) and [Infraworld](#).

Disclaimer: All L33ts must first be Ub3r approved to be upgraded.

Zabuza? - December 3, 2013, 8:17 pm

Vouch for 5 star, he's awesome. Thanks so much for the contest. I'd enter if I wasn't already upgraded!

1. How have you contributed so far/why do you deserve this?

well, i've been pretty active lately having on-going conversations about serious topics in my opinion, and it's been a great experience hearing other peoples values. i don't believe i have contributed a lot other than helping others in the gta v section, but other than that, i'm not the type of "giveaway" guy. i've been active in the innuendo and lounge for quite a while and i must say i'm enjoying my experience here. i just became active a week ago and i'm confused as to what took me so long to stay on this forum as this is an amazing society and i would love to make the most out of it.

2. What are you future plans to contribute?

i plan on starting a successful selling business with instagram whether its likes, followers, shoutouts, etc., as i have just found out some tips and tricks to gaining them. i do not have an income yet, but when i do, i expect to do so many contests it'd be unbelievable! i plan on continuing

with on going conversations and just having a great time here on hf

3. Anything extra you wish to add?

thank you for this contest, and i apologize for the lack of capitalization and grammar :P

Nullezz - December 3, 2013, 8:17 pm

Nice contest you are conducting. I wish good luck to all who are participating.

Thanks for the awesome contest !

1. How have you contributed so far/why do you deserve this?

I haven't been active in the past year busy RL, But i try to help the community with my gfx skills and ill be active as long as i can.

2. What are you future plans to contribute?

I'll try to help anyone who needs an extra hand in the gfx maybe something different in the near future.

3. Anything extra you wish to add?

I know i havent been all active lately but ill be active from hence forth and by the way thanks for the awesome contest 5 Star.

1. How have you contributed so far/why do you deserve this? I'd say I deserve this, because I try to be as nice as I can to everyone. I give out free stuff to anyone that ask pretty much. I help people set up programs and things they can't figure out if I know about it. I have been here since 2011 and never had a scam report or anything of the sort. Here are some of my contributes.

1. How have you contributed so far/why do you deserve this?: I have done many transactions and I contribute a lot in the eWhoring section and the and the appraisal section. As I do a lot of transactions this allows me to +3 those who are smooth dealers, and also to those who contribute.

2. What are your future plans to contribute?: I'm thinking my private unsaturated eWhore pack which includes a video, vcw and pictures. I may giveaway some steam games too.

3. Anything extra you wish to add?: You have a dig bick and you are EXTREMELY sexy.

1. How have you contributed so far/why do you deserve this?:

Let me first start of by telling you a bit about my self.

My real name is Mika, I'm 14 years old and I'm from the Netherlands.

I have been a member for a while now and have learned a lot, I've been trying to help the community out where ever I can.

I really want to be an HF L33T because that would make people not look over my advice so quickly.

I do not expect to instantly be more respected respected is earned not bought.

And it would give me the ability to have a picture as signature and to rep people who deserve it.

2. What are your future plans to contribute?:

I plan on doing some kind of giveaway when I can, and of course keep on helping people where ever I can.

3. Anything extra you wish to add?:

I think it's really nice of you to do this give away.

And good luck to all.

1. How have you contributed so far/why do you deserve this?

I have shared many stories from my personal life and I am always trying to give people a laugh and make people's day. I get enjoyment out of helping others and would love to continue helping. I would love ub3r and I think I deserve this because I personally believe that I am HQ enough to be rewarded with ub3r. I've actually already been approved but never had the cash to purchase it.

2. What are your future plans to contribute?

I have actually been coding my own RAT with a couple of friends and I have to say it is looking great. I believe a lot of new members would love it as it will be free. I hope that it will become just as successful as darkcomet or maybe even replace it completely! I plan to get this out as soon as possible and ub3r would be a HUGE motivation for me.

3. Anything extra you wish to add?

I really appreciate you doing all of this for people. This is a great way to give to the hf community and it really shows how great of a guy you are. I can promise you if you upgrade me you will not regret it! Thanks!

1. How have you contributed so far/why do you deserve this?

I'm always active on hackforums, and I'm always here to try and help. I have learned the beginner hackers the basics, got people away from doing things they shouldn't do, and even help build some websites. I always help people who pm me, and if I can't figure the problem out myself, I would try out how certain things work until I know how I can help the person. I have also done some giveaways myself, because you guys are there for me as well!

2. What are your future plans to contribute?

I will always try and help people, this is always my main goal. I will try out some eBooks as well,

and write reviews about it.

3. Anything extra you wish to add?

Thanks for the giveaway, and good luck to everyone!

1. How have you contributed so far/why do you deserve this?

I believe I deserve this UB3R upgrade as I plan to open many services for the community, and am currently broke due to my student loan. I probably haven't contributed the most out of all people posting so far, but I do believe I have what it takes to provide some quality services. I am a talented writer and am currently writing a novel, which will be published in real life to try gain some money to start my business, and plan to provide writing services within the forums. I know some basics of coding languages, and have made a twitter follow bot which I may possibly release in the near future.

My activity on Hackforums is reasonable, as I am on at least a few hours everyday. This also deems me worthy of an upgrade. I'm not the best at graphic design, so I couldn't really make my application the most visually appealing others could have, so I hope you don't mind. I believe myself to be a a young man of integrity and humility, and I have rarely told a lie. This proves me as a trustworthy user, in my mind. In my past I've worked for twBooter as support, and dedicated a fair amount of time to that to help users of Hackforums that owned that booter. This may also deem me worthy of an upgrade.

2. What are your future plans to contribute?

I plan to create a writing service for homework and writing in general. I may also contribute free graphic design services, although I may not be the best at it but I could give it a shot. When I get enough money I plan to start a stress tester and maybe a few other things, it all just depends on what happens in the future.

3. Anything extra you wish to add?

I just want to thank you, 5 Star, personally for hosting this contest. I will also include a screenshot to prove that I have been accepted for an upgrade to UB3R in the spoiler below.

I have been sharing quite a lot with the community lately. I have given out free methods and I try to help any member whenever I can. L33T would give me a lot of abilities that would be very useful. I would want to give some green apples to some members that had helped me in return. I also have a plan to host a contest as Christmas is just around the corner. I don't want to be pulling lies now, I will stick to my word. I aim to make my posts as HQ as possible with solid information provided whenever I help members. Here is a list of contributions that I have made.

Hello,

1. How have you contributed so far/why do you deserve this?

I have recently hosted a contest to give away a game, I also helped some people in the Computer Overclocking, Customizing, and Hardware section as in giving advice etc...

I have been here on HF a long time just roaming the site and I think it's time to get uber.

I have seen many good things and bad things on HF which includes uber's scamming non-upgraded members and they think they can get away with it just because they aren't upgraded. or other people that are very generous or post HQ content. I want to join the HQ uber people to give uber a good name.

2. What are your future plans to contribute?

When I have more time I will start to learn how to E-whore and plan on giving more Contest.

Ofcourse I will contribute to the people that requires my help. I will do as best as I can to help them.

3. Anything extra you wish to add?

There are many Hi-quality uber people here and I want to join them so the bad uber people (scamming,trolling etc...) are in the minority and eventually decides to go to the HQ uber people.

Thank you for reading.
Kind regards

Cyk

1. How have you contributed so far/why do you deserve this?

I give to hackforums and help support by posting and giving away things such as eBooks. I code programs and release them on hack forums. I show members tutorials and I do not use hackforums to spread any kind of virus(es) such as other people. I show 'newbies' how to browse and get to places. I lead people to the rules if they are breaking them. I have been an active member and signed up in April 2012, I am almost 2 years old on hack forums and I've been waiting for a moment like this. I really wish I had a name-change for my name is old and I do not like it. I will continue to do the same I have done in the past such as free giveaways, ebooks, etc. I have good grammar and wish I could win L33T. Thank you 5 Star for the opportunity to enter this wonderful member upgrade, have a nice day!

2. What are your future plans to contribute?

Make images, and siggys (signatures) and contribute by coding and doing more give-aways. I am planning on doing a free eBook on a random topic and making a giveaway. Once I get my PayPal working again, I will start to contribute by donating. Thank you for the chance 5 Star!

3. Anything extra you wish to add?

No thank you.

1. How have you contributed so far/why do you deserve this?

I would love to get l33ts then more doors would be open to me since i am respected member i can get things like vouch copies or early stuff like silent bitcoin miners, i have been struggling since i can hardly afford anything, if i am respected i can get these and be able to say get more slaves = more bots for bit coins = BTC giveaway in the future which is what i want to do but the problem is that it's hard finding good free programs to get slaves or bots and be contributing back to the community. you can see how l33ts would help me to this extent. Thanks in advance.

2. What are your future plans to contribute?

As I said in my previous post i would contribute By hopefully giving giveaways in massive BTC since when i get l33t i can get benefits like vouch copies i can negotiate prices since i am trusted member basically getting the equipment i need which would be an RDP and FUD crypter. Resulting in a massive bitcoin mining scale and future massive giveaways. I see this as more if an investment opportunity if someone just believes in me i can show them what i can become when i am able to access so much more... If you believe i wont disappoint.

3. Anything extra you wish to add?

Nothing to add (GOOD LUCK EVERYONE)

1. How have you contributed so far/why do you deserve this? I've mostly contributed in the graphics section i guess, doing graphic design for free which i will continue to do so to improve my skills.

2. What are your future plans to contribute? Well I plan to continue honing my graphic skills and plan to release my own thread designs, and signatures, which I'll be doing for free! As I already earn money from my private e_whoring method which I may release in the future if people are interested!

3. Anything extra you wish to add? To finish I'll add my favorite quote: "Do not educate your children to be rich. Instead educate them to be happy, so when they grow up they will know the value of things not the price".

Normal -> L33T

[img]http://x.hackforums.net/images/modern_bl/groupimages/english/hf_l33t.png[/img]

1. How have you contributed so far/why do you deserve this?

Well, My real name is ramon and i am 15 years old and i love to listen/make music. I live in holland, a nice small country in europe. I know hackforums since i was 13 years old, one day i was wondering what hacking really is. I've searched it on google and came out on hack forums. One big lesson i've learned on hackforums is: "If you help the community the community helps you." I think i deserve this L33T upgrade because im pretty long member of hackforums (1 year 3 month's.) I am very active on hackforums and i've made much tutorials/tools to help players out since i joined. I also had a RAT service some month's ago to help players set-up their rat and help them to get their first slave. I also did a free DDOS service about a year ago. I've got a positive reputation and im a friendly/nice person (i think because it is hard to say about yourself), i am never angry to other hackforum members even if they are a bit annoying me. I wanna join the EDM group of brotherhood but i can't because im not L33T. I am a house producer and i want to keep the EDM (Electronic Dance Music) section on the forum active.

So that is also a reason why i wanna get this L33T Upgrade.

Here is my soundcloud: <https://soundcloud.com/ramon9585w> if you wanna check out my

productions.

I've tried much contests before but in vain. I don't have the money to buy L33T otherwise i did that because it is much easier.

2. What are your future plans to contribute?

My future plans are to join the brotherhood EDM group to keep the EDM section on hackforums active because im a house producer and i love EDM. But i can't join the group because im not L33T yet. So that is also another reason why i really wanna get a L33t upgrade. Some other plans of me are to make some more great tutorials and to improve my english skills. I am also always ready to help other players and to click on their links etc. I also wanna learn how to photoshop and produce on a bit higher level. But that will be alright because on hackforums are enough tutorials and that is what i like about hackforums. I've learned more on hackforums as on school i think.

3. Anything extra you wish to add?

Well, i appreciate you are giving members the change to get upgraded without doing a real consideration.

I mean there are much members around here like me that just don't have the money to upgrade.

This is a good alternative for these members so thanks for the contest!

Good luck to everyone!

?

Austinbanana - December 11, 2013, 7:44 am

How have you contributed?

1. I have tried my best to contribute in all realms of the forum, art, gaming, money making, etc. I have gone from 250 posts to 1300 in a matter of about 8 days, and plan to continue being extremely active. I feel like l33t could be very beneficial because of the increased private message limit. I constantly have to delete messages to have room. Also, I would love to give feedback to users via reputation for all their hard work, however I can't as a normal user.

How will you continue to contribute?

2. I plan to continue posting and giving help and thought to people's issue around here. I plan to publicly release some of my ebooks for free to all users, so they can earn money, host their own site, etc. I will attempt to give away many items or techniques I gather along the way

What else would you like to add?

3. I just want to say thanks a ton for this contest, and good luck to all, I appreciate the willingness to give to us.

Mt. Everest - December 11, 2013, 12:57 pm

How have you contributed so far/why do you deserve this?

I have done a few giveaway with what little bit I have to giveaway, including free GFX service, Website Views giveaways and I help in any possible situation that I can. I have also sold a few things here on HF and find that the community is easy to deal with. I have also referred a few friends to HF who buy products here and what not. I also participate in small events like ewhoring shows and small things like that to keep in contact as much as possible with the community.

What are your future plans to contribute?

Well I cant really lie and say that I have made plans to contribute in the future like setting a date for a giveaway or anything, but I do plan on giving back. I will keep my current giveaways open and open more if I have more things to giveaway. When I get l33t (sooner or later) I plan on giving more advice to people since they will trust me more and will host more contests since I find it more fun. Even possibly I will host one of these events if I get the money to do it in the future since I think that

certian members deserve to be upgraded and just cant afford it like me. Pay it forward right :)

Anything extra you wish to add?

Thank you for giving all of us a chance at getting upgraded. It just goes to show us that there are people in this community who really care and are not greedy with their money. I would just like to wish every other contestant goodluck and hope that I win a upgrade to l33t. Thanks again!
