Hello guys,

Few hours ago I bought SovietMiner from this thread:

<https://hackforums.net/showthread.php?tid=3549560&highlight=sovietminer>

I downloaded it after purchase and installed everything successfully.

And now after few hours, I opened it again, and I got this message:

[\[img\]http://s30.postimg.org/g8bcyjyql/soviet.jpg\[/img\]](http://s30.postimg.org/g8bcyjyql/soviet.jpg)

What this mean? Did I make something wrong?

What is assembly?

You tried to crack it >:(

jk :)

Contact the owner, make sure he sent you the right and updated version.

Im sure it was just a hiccup and James Bond will take care of it!

Just contact the owner, the same happened with HydroTurbo on a lot of their customers, then fixed itself a few hours later.

Ok, thank you very much for your reply.

I will contact the creator of SovietMiner about this.
