Visit this link. You'll be asked to log in to your account. This is safe. I did this with mine and was given what was promised.

Log in and it'll run through your last 3 bills to see how much you could save by switching to them. Once this is done, you'll get an email with details to claim a \$5 Starbucks card.

this is so shady and why are you sending your user and pass straight to this website? just because the website is encrypted doesn't mean they're not going to misuse your data lol
