Hahah, I have to be honest. The main reason I bought this was the thread design. However, this ebook method is amazing. I'm from the UK and I made £1 in less than LITERALLY (and I know a lot of you wont believe me here) ONE minute of work. Which is around \$1.70 I believe.

Thanks, first guide on HF which has made me some money. I think I could easily hit \$7+ a day from this. Will do more when I wake up and post a screenshot.

Hi SDK, im interested in the method, but i dont want to waste money not being from US and most paying a VPN to use it to not see results.

Could you tell me(or post here) if you use VPN or other method? Not the ebook of course, just how you earn being non-us.

Thanks

Moxxi - December 19, 2013, 4:14 am

if you are not in the USA/UK you are buying at your own risk.

But I have heard many people are successful with a VPN

I know. Just asking to this user if he could tell me how did he do to not have problems.

SDK - December 20, 2013, 5:47 am

Well if you are not from US, it will take more time since ad's are less displayed.
This method does work but I recommend getting a private proxy or something.
As OP stated "buy at your own risk". You can receive your payment back, but if you are non-us citizen it might take more than a month.

Moxxi - December 21, 2013, 6:42 am

If you are outside of the two target countries, I would highly suggest a VPS for maximum earnings.

Can we earn more than 5 bucks a day?

D??elet??e - January 9, 2014, 7:33 pm

This is my honest review:

To be honest, the method is very bad. I don't see how people can make money. It took me like an hour to make fifty cents... and besides the fifty cents i've only made 36 cents. You need a fully verified paypal. There are fast payments, but that's because of the full verified paypal. I don't believe the fact that you can make \$2-5 dollars a day. I just don't think that's possible. The seller does not

help you with problems, and doesn't answer my choices. This is why I'll have to rate this ebook a 2/10. It's not the best ebook, unless you want to lose money.

Oh and, all the PM support i got was basically: I gave you a list, do the method yourself i don't have time for you. This was my honest review of the ebook and what happened to me.

Moxxi - January 9, 2014, 7:45 pm

@BisexualPanda

Interesting, because I exchanged over SEVEN PMs with you and kept providing support and you stopped messaging me. Also interesting that I was the last one to reply, you never replied back, yet im the one who doesnt have time for you. And no one else has had problems after support.

You were also trying to get me to do the method for you, I clearly stated in the PM AND in the book that the list I give is just examples and you should think of your own things, you wanted me to write a whole new list just for you because you didnt want to try.

And for the fully verified paypal, thats stated in all caps on the thread and has been for a long time.

You messaged me for support less then 30 minutes after buying, IE you didnt even want to try

-Sent Messages note that I replied to all SEVEN messages in a timely manner and was the last one to send a PM [\(Click to View\)](#)

-Received messages to show I answered you ALWAYS in a timely fashion. Note that I replied to every support message in 2-5 minutes [\(Click to View\)](#)

I will gladly keep helping you, but as I told you in PM I will guide you but I'm not going to do the method 100% for you.
