"The "new sibling romantic comedy" revolves around Masamune Izumi, a light novel author in high school. Masamune's little sister is Sagiri, a shut-in girl who hasn't left her room for an entire year. She even forces her brother to make and bring her meals when she stomps the floor. Masamune wants his sister to leave her room, because the two of them are each other's only family.

Masamune's novel illustrator, penname "Ero Manga Sensei," draws extremely perverted drawings, and is very reliable. Masamune had never met his illustrator, and figured he was just a disgusting, perverted otaku. However, the truth is revealed ... that his "Ero Manga Sensei" is his own younger sister! To add to the chaos that erupts between the siblings, a beautiful, female, best-selling shojo manga creator becomes their rival!

The light novel will debut on December 10 for 610 yen (about US\$6.15).

This is basically how everyone feels. Just look at the protagonist, he's basically a recycled kyouzuke. Nonetheless it looks cute and probably will do well.

I laughed my ass off all through oreimo so I think this will be funny. And obv it resembles oreimo heavily as same creator and premise.
