Thread: [How to get a custom and good quality mouse pad for 99 cents! Including shipping.](#)

alex100d - December 11, 2013, 3:33 pm

Step 1: Go to www.artscow.com and make an account.

Step 2: Go to the mousepad item, click the "CREATE IT!" button and customize your mousepad, you can put whatever you want on it.

The image on your mouse pad might be all pixelized and blurry during the customization process, but once it is printed it will be the original quality.

Step 3: After you are done customizing your mousepad, click "Add to Cart", then click "Proceed to Checkout".

On the right side there should be a box under "Coupon/Gift Certificate Code" where you can type a coupon code.

Promo Code: Z099PLAYJ9FVZ

There is free worldwide shipping!

After you enter the code, your order should be 99 cents and free shipping, and you can continue your checkout.

The mousepad itself was of great quality.

This deal is passed around like a cheap hooker.

It's a referral code that also gives a discount.
