I have a VCW with a 5 minute show, do you let the show play all the way through or run off with the cash? Also do you tell the victim how long the show will be ? \$25 for a 5 minute show sounds kind of crazy but thats just an opinion because i never bought a cam show before in general.

Let the show run... It might open opportunities to sell more shows, and this way its one more person he may pay someone else....

All in all, run the full show

no tell him 15 - 20 min for 25\$ and after 5 min when the show finish tell him your brother/father/roommate/boyfriend got home, tell him you will cam with him tommorow and dont block him right away.

thatway he will feel he can have trouble and wont charge back + you can blackmail him from the name of your father/hacker brother, + you can try to milk him another time

Dont scam people please, you fuckup the market for you and for other people

OK Thank you so much for your advice, i appreciate it.... I definitely wasnt planning on scamming i just wasnt sure if people let the show play for the 5 minutes or not.

I did that only one time, I just let the Show play and wait until he check it, that there is a loop for every single action like squeezing boobs or get in a postition action.

A bit :)

Thats not what I ment, ewhore is scamming and notthing else, but in the first case the person will know he's been scammed and will tell others, in the second - most likely not...
