Thread: [Metro Vacuum ED500 DataVac Electric Duster on sale!](#)

Focusal - December 16, 2013, 5:02 pm

[Leafblower POWER!](#)

Metro Vacuum ED500 DataVac 500-Watt 0.75-HP Electric Duster 120 volt
Sturdy all-steel construction
Includes air pin-pointer, air concentrator nozzle, air -flare nozzle, micro-cleaning tool kit
More effective than canned air and safer than canned air
500 watt motor, .75 HP, 4.5 amps, 70 CFM air flow

I have bought this last week for the price of 59.99 and kinda mad that this went on sale. Luckily I just chatted with amazon support and they refund me the difference. But this is amazing. I used the can air a lot and not only it cost me a lot for the cans, but didnt clean as effective as this. Pretty good tool to have. Good dust cleaner, saves you money on long run.

It's still \$10 less then newegg etc. So it is technically still a sale.

Btw, buying one now!

Focusal - January 4, 2014, 1:25 pm

This was 59.99 when I bought it. Then couple days after buying it, it was 45\$. But newegg is selling for 10\$ more so its still somewhat a sale
