Thread: [Nasa's employee records through whois](#)

gary1313 - April 30, 2010, 12:19 am

I Wanted to let everyone know that larc.nasa.gov is the whois server for Nasa's employee records at the langley Research facility.

[Simpترم download](#)

Open Simpترم switch to whois type larc.nasa.gov. The box that says login name serves as your search function for the person your looking for. so if your searching for john itll come up with everyone who works at the langley research facility named john, including theyre telephone numbers,addresses, department they work in , fax number, and many other things

Jayke - April 30, 2010, 2:57 pm

why do we need to know this?

Yeah why?

Kinda Old - April 30, 2010, 3:11 pm

Thanks for this odd information.

BluexXxKalishnikov - April 30, 2010, 3:15 pm

Thanks.

I'm gonna go stalk NASA employees.
I've so been waiting for this moment.

gerald311441 - April 30, 2010, 3:43 pm

[sarcasm]Great I can look at private information of a government agency with so many smart people working for it! I do love prison![/sarcasm]

Jayke - April 30, 2010, 4:45 pm

lmao ^^ why put this in tutorial aswell? it aint reli got anything to do with hacking i dont think

-mothered- - April 30, 2010, 5:32 pm

Now this Is quite some jovial stuff to say the least.
Good for a bit of a giggle anyway :)

Hades - April 30, 2010, 6:08 pm

Score! more people to stalk?
