Thread: [My No-IP is disabled from past 3 days ago. Can anyone fix it?](#)

Cape - December 18, 2013, 2:03 pm

Hey guys,

My No-IP is disabled from past 3 days ago. Can anyone fix it?

Because i lost more than 1500+ bots including my favourite bots. ?

Regards.

MyLittlePony - December 18, 2013, 2:10 pm

You mean banned? Nothing I believe.

I got mine banned as well, thousands of potential dollars gone because of that.

pyronce - December 18, 2013, 2:11 pm

Your No-IP account may got banned I guess

Mr. Dr. Prof. Patrick - December 18, 2013, 2:12 pm

try creating another no-ip with the same name, i dont know if it will work by the way.

It won't work, have already tried before.

NoFundog - December 18, 2013, 2:30 pm

Check my Thread :) It might help you.. Atleast it helped me.. :) Depends on wther you got the e-mail or not..

Yea i got my no-ip banned too due a recent ban wave. Nothing you can do.

Cape - December 19, 2013, 10:52 am

My account is back and got my one hostname back but the other one which i have almost 1500+ bots still on quarantined and i dont know what will be the situation.

There is 3 solutions :

-Buy a dns services at dyndns : <http://dyn.com/dns/> they will never ban your account

-Buy a vpn with DEDICATED IP and accepting portforwarding , i suggest you Nvpn.net , and type

your static ip in your builder as dns or host , you will never ve banned again

-Buy an offshore domain and create your own dns service , you will never be banned again

best regards

For Domain you will need a client to make it run always.

Hey mate - if you've still got old No-IP email's from before you got banned saying to re-activate your account.

It will re-activate your DNS - but you still cannot use the control panel on the no-ip site, but you will still be able to use any old servers you have made using that DNS.

Hope this helps.

Merry Christmas.

How you can restore previous hostnames on No-IP ? ?

?layStation - December 20, 2013, 9:31 am

Has this account been banned?

Or is it still active?
