B0\$\$ - December 21, 2013, 6:56 am

Since yesterday, HF takes sh*t load amount of time to load ?

Sometimes the page hangs up after loading ?

Anyone else facing this or is it just me ?

Mac Macman - December 21, 2013, 6:56 am

Firex1 - December 21, 2013, 6:59 am

Mine was lagging a lot yesterday too. It could have been Omni updating the site.

I even tried it from my work place. still the same.

Maybe it was the snow that was making you goes lag.. dunno, I didn't experience any lag lately.

?ing - December 21, 2013, 7:17 am

Haven't been experiencing any problems on my end.

The Commander - December 21, 2013, 7:17 am

Mines has been perfectly fine, apart from the server overloads which we all have to take in.

the server load and the lag I have been facing are completely two DIFFERENT things.

Is it maybe the computer you are using? or your internet connection?

nah man . My internet connection is great . never faced probelism wit anything :| .

(Dec 21, 2013 08:24 AM)- Sam - Wrote: [\[CITE\]](#) Your ping is extremely high, that is why HF is loading slow for you.

so why isn't there a problem with other sites ?

Gummy Bear - December 21, 2013, 7:34 am

It looks like your ping, but if you're not having issues on other sites maybe where HackForums is located?

?Arrow-? - December 21, 2013, 7:34 am

I personally have not experienced any lag.

(Dec 21, 2013 08:34 AM)- Sam - Wrote: [\[CITE\]](#) Lots of variables, for one, distance from the site. You need to remember HF has a lot of traffic, and your ping isn't the best.

so HF suddenly decides to hate me :(

Dafoo - December 21, 2013, 8:04 am

Hf Loads fine for me! Sometimes loads slow but rarely!

Mason - December 21, 2013, 8:06 am

'Snorlax - December 21, 2013, 8:10 am

Just you, buddy. No lag from my side at all.
