I got my hands on a copy before Cobalt+ released the method and it is definitely worth the buy. The eBook is great and it shows many ways in which you can make money all based around the same idea. It is extremely detailed and very well-written. I truly cannot believe how this eBook is only \$14.95. It is a great buy for anyone looking to make money.

This is semi-autopilot as you don't need to do tons of work to gain the cash. You set it up, it goes, make money, rinse & repeat.

It is not recommended that you use multiple accounts.
