Thread: [my first facebook and yahoo hack..!!](#)

wnbashockballa - April 30, 2010, 2:18 pm

so i did some snooping around on this persons face book that only showed his bday and some other stuff i couldn't view his wall or pic's then i found out he had a formspring account by looking at the questions he answered i was able to find out the password to his yahoo and because he had almost 1000 saved messages i fount out his facebook, myspace.. which was soo cool he has some famous friends that wont add ppl they don't know so i was able to see their profiles....yeahh me!!!...lol..?

Moot - April 30, 2010, 2:19 pm

Congrats keep up the creeper snooping.

Triple Z - May 6, 2010, 1:06 pm

Congrats :)

People shouldn't put up so much information that creeps like you can find out their password, probably by reverting.

(No offence!)
