I think you are a good-hearted person who wants people well and ain't looking down on people who are disabled or elderly people who can't do things that we young people can do and that elderly people do everything slower than us young people and so we must accept such things, I think you are just that kind of person who is mature enough to accept things as these things I just mentioned.

Thanks for doing this kind of things, appreciated.

Merry Cristmas everyone.
Take care all.

Cheers! ?
