Pressing the LEFT arrow key brings up an image in a new tab.

Do they just randomly choose a picture from push etc or do you upload all of em yourself?

They are all scraped from puush and imgur.

I like the concept a lot but not really the design... few people like grey.. Why dont you find yourself a nice looking theme at themeforest.net? Just my 2 cents...

The grey is there to bring your attention to the image. Thats why it is a neutral colour.

Sometimes I want to scroll down to see the rest of the image so I press the down key and it

automatically downvotes. Other than that I think it's a fun site.
