Found this site:

<http://d3e8hg74p0utws.cloudfront.net/js/adbuilder/landing-pages/state-farm-burstly.html>

Made \$5 off of it easily, then it blocks your IP.

There's supposed to be a state farm video that plays and then it gives you a code.

Try clearing your cache?

? Maybe there's a cap.

Try again tomorrow or something.

Same getting the error. Tried a different browser, still getting the error. Tried with a proxy, still getting the error. Tried with vpn, still getting an error. It's most likely something on their end. Thanks for sharing though.
