Thread: [Clan style background feedback and tips](#)

**Phyxcists Mate** - December 27, 2013, 4:43 pm

Hey guys this is my first thread and i have decided to do it on the graphics section since i myself do graphics. There is a background i made a while back when me and my friend had a YouTube channel together. The clan sort of style background is what me and him were going for in most of our background speed arts. I'm not very experienced doing the "clan" style background and don't know the techniques ect. I really would like some feedback on how i can improve background like this one. I would especially like some feedback on the "slogan" text on the bottom how to make it suit the background and what i can do with the "slogan" to make it simply look better for this type of background.

Image Below

Thank you for the feedback I will try and improve this type of background as well as i can :)

**\_Shaho** - December 27, 2013, 7:02 pm

This looks great.

I would change the font and also change the background colour to a dark grey. Currently, the background kills the logo colours.

Overall: 8/10

Thank you for the feedback i will take that into consideration next time i am creating a background

with this style.

Awesome. Well, good luck with it and please remember to post it here so we can see it and rate it!  
:D
