Thread: [Need tattoo rendered](#)

Baker - December 29, 2013, 10:59 am

Well basically I want to get this tatooed but need it rendered .
Could anyone do this for me please ?
I just need the skin colour and background removed and the black tatto left intact .
Here is the image
Thank you ?

Something like this?
No sorry , I have to try get it without the skin in the background .I've attempted a few times myself without luck

Sweegy - December 29, 2013, 11:12 am

Don't know if this is what you wanted, but this is how I get mine prepared.

This?

Akia - December 29, 2013, 11:23 am

I think he meant without the skin! You should be able to take it to a tattoo shop and have them draw it up. The shading will make rendering it almost impossible..So my suggestion it to have someone re-draw it!

Yeah I know but I'm trying to get it rendered cause the lad in the shop wants more money to draw it out so I'm trying my luck here

Aww, I get you now. Though with the shading its going to make it pretty hard to render the inside.
