Back in 2007, I was a complete friend. I wore jeans that looked like floods. I wore a zip-up hoody. I also wore a baseball cap, that had a curve on it. You heard me. A curve on it. How fucking stupid is that? I would always study after school. For hours. I had a great GPA. My Mom was proud of me, my Dad was proud of me. The only thing is, this guy named Jimmy bothered me. Now Jimmy would always come up to me and say that I was a lanky scrawny little bitch. He would throw me in to lockers. I would go home and cry and play Lego: Batman all night until I fell asleep on my controller.

I came across this guide in its beta stage in 2012. I read it. I went, how is this going to make me any better? Well, let me tell you. I began wearing hats. Yeah, hats. Ones with Bulls on them. Oh, and they had snapbacks on the back. I began taking Whey Protein and Creatine, because that is what all the big guys take, right? I started wearing crewnecks with big red boxes and text that says "OBEY". I grew my hair out. I got a twitter. I tweeted all the fucking time. I met this guy name Jace. Yeah, jace was sick as fuark. He takes marijuana. He told me I should take some. So yeah, I took some marijuana. I began posting it on Instagram. All the bitches liked it. I started telling the teachers they are gay and shit, and my marks dropped.

I don't care though, because I have fucking swag now. Thank you, Devote. This book changed my life.

I thought this eBook was a major troll for sure, but I decided to purchase a copy for one dollar anyway. What's the worst that could happen? Unfortunately, it was not a major troll at all. I am completely disappointed, but I am an extremely cool person now. All I wanted to be was fat and ugly, but this book was so powerful that it transformed me. I'm so sorry that I purchased this eBook. Now I can never get rid of all this coolness that just seems to cling with me wherever I go.

EDIT: I am so damn cool that I even got post #69 on this thread. So cool! Wow!

Oh no, it's all real. I haven't had a dissatisfied customer yet. The people who get the free one are always happy and the people that pay the \$1 ...? They are fucking amazed, this one guy offered to pay me more after reading because he finally found out what he was doing wrong. He finally asked that girl out and is not cooler than ever. I am happy to see so many success stories. ?

Please send me this E-Book.

Just the other day people at my school were calling me a fat bitch and it made me sad.

I'm soon moving to another state after all the bullying I couldn't handle, so this could give me a headstart to be cool.

Let me explain to you what happens in a story form.

Once upon a time there was a boy. A boy with no friends, no companions, nothing....

One day he decided to be cool in front of the girls and jocks so he could hang out with them, little did he know what was going to happen.

While the boy prepared for the hipster swag attempt at becoming a "cool kat" he noticed he wasn't wearing any swag clothing. The boy waited until tomorrow where he could prepare all the swagoliscous clothing that suited his niggas needs.

He opened his closet and put on his scarf, skinny jeans, snapback, and some gay skechers he found (Considered cool in florida) and walked himself to school. Once he arrived to the school he prepared a plan, a plan which no mastermind could think of..... Code named "yoloswag420blazeitniggasfaqqot11one!".

Once he was finished, he executed it in his classroom.

Everyone looked at him and made fun of him, some even through paper balls which were on fire!

He decided he would never go back to school and he would tell his mom about his experiences.
