Coded this out of boredom. Just type in your desired Name, Username, Password and the Captcha. The Creator will take care of the rest :)

This is just a LITE Version and IT IS SLOW. I could improve it much better and faster with e.g. automatic random BIO, Profile Picture, Death by Captcha, etc. But honestly I don't feel like it right now :D

Let me know if you need a tool like that just more advanced for a little fee :) I'm willing to code for a little income :P

Have fun guys :)

For people who believe in Virus-scans:

PS.: No e-Mail needed! This will also automatically activate your created twitter account!

Download with caution, post a virus scan.

Here we go again... -.- No offense but I could crypt my files and then post them here... Downloads are ALWAYS at your own risk. And a virus-scan is ALWAYS useless...

I still added a Virustotal Scan...

that looks really interesting! something I'll think about

Herbo - December 29, 2013, 6:29 pm

I am going to use this, thanks so much man!

you know what would be nice?

if all accounts made with the tool follow each other :D

and if it was MUCH quicker i would buy it for a small fee :D

You would have to type a lot of Captchas in a row... But it is of course possible. This is just a small tool that creates a temporary Twitter Account real quick. Twitter might ban the accounts cause they are made out of temporary email accounts. However I could change that easily and use more private eMails or Death by Captcha support so it can create a new yahoo/gmail/hotmail/... account to register on twitter. This would double the captcha use tho...

Thank you :)

I can do much much more. I also have a follower bot, etc. I can do almost anything auto-piloted in twitter :) Just hit me up if you need like a custom job :)

Double A - December 29, 2013, 7:02 pm

follower bot :O

will it get you banned?

if not i would love to use that!

Here is an old thread about it:

Still have the source and binary. You won't get banned cause I use the Twitter API. I used it to follow over 200 Accounts at once in less than a minute. No problems.
