Thread: [\[The Empire\] How to Hack Facebook Accounts\[With Pictures\]](#)

?XiS - December 30, 2013, 5:17 pm

Ok guys, before everyone starts flaming on me, I know this has been posted before but i got tired and p*ssed off at new users always asking the same question. So basically there is more than one way of hacking Facebook accounts:

Using a RAT/Keylogger

Spoiler [\(Click to View\)](#)

[How to Hack Facebook using Remote keylogger](#)

[How to hack facebook, twitter, Gmail password using Winspy Keylogger](#)

Phishing (Not allowed to talk about on this forum)

Social Engineering (What I will teach)

Using their security question

Pros and Cons to this method:

Pros:It is quite easy to do if you know the victim well

It is simple

If all goes well, you get access to the victims account

Cons:You must be the victims friend on Facebook

You must know the victim very well

Can't guarantee access to the account 100%

Let's get started:

First make sure you have the victim added on facebook

Next make sure you have a yahoo account

Spoiler [\(Click to View\)](#)

Then go to your [Yahoo Contacts](#) and click import contacts.

Spoiler [\(Click to View\)](#)

Then choose import from Facebook, or wherever else you wish.

Spoiler [\(Click to View\)](#)

You can now get the email that your victim uses to log on to Facebook. To do this, write their name in the search bar, and their email comes up.

Spoiler [\(Click to View\)](#)

Now we take this email, and head over to the website where it is registered. In this case it is hotmail, so we head over to hotmail and click "Can't access your account?".

Spoiler [\(Click to View\)](#)[img]http://img850.imageshack.us/img850/3686/6bvt.png[/img]

Then you enter the victim's email and the captcha click next.

Spoiler [\(Click to View\)](#)

Now it should bring up a list of options. You want the "Use my security question" option.

Spoiler [\(Click to View\)](#)

Now you could either guess their answer (this isn't efficient, and you only have three tries), or you could social engineer your victim and try to get the answer out of him/her.

Spoiler ([Click to View](#))

Kind Regards, AXiS ?

fapblood - December 31, 2013, 3:35 pm

Say I used all three tries at guessing the security answer and they were wrong.

How long does it take until I can try again?

JaGLY - December 31, 2013, 5:51 pm

Verry cool tut man Keep the good work up i alredy got 88 facebook accounts with social engineering !

?XiS - December 31, 2013, 7:10 pm

(Dec 31, 2013 04:35 PM)fapblood Wrote: [\[CITE\]](#) Say I used all three tries at guessing the security answer and they were wrong.

How long does it take until I can try again?

I hour I think but im not too sure

Not long enough

??l?????? - January 1, 2014, 10:01 am

Then what are the what are the things to do to get security question from the person?

Insanity? - January 1, 2014, 10:02 am

There's many tutorials on the same method you provided. What exactly is different here?

JerroneJarre - January 1, 2014, 10:02 am

Would be a lot better if it was 100% success rate, I'm pretty sure they will catch on too

?XiS - January 1, 2014, 11:07 am

(Jan 1, 2014 11:02 AM)Hipzter Wrote: [\[CITE\]](#) There's many tutorials on the same method you provided. What exactly is different here?

Nothing is different apart from the fact mine has picture, and the other tutoris have fallen back the pages.

UTRONEX - January 1, 2014, 11:15 am

Thanks man, such a simple technique yet you wouldn't know it unless you tried. Great tutorial :)

?XiS - January 1, 2014, 11:16 am

(Jan 1, 2014 12:15 PM)Utronex Wrote: [\[CITE\]](#) Thanks man, such a simple technique yet you wouldn't know it unless you tried. Great tutorial :)Thanks man, hopefully it helps other people out :)

Exchange.(services) - January 1, 2014, 11:18 am

well , it's worth a try if you really want to hack That fb account

but yea the Chance of getting that to work is not really high (unless you know the person for really long time/good)=he is a good friend = (not going to hack) :)

Thanks for the share.

UTRONEX - January 1, 2014, 11:21 am

(Jan 1, 2014 12:18 PM)Exchange.(services) Wrote: [\[CITE\]](#) well , it's worth a try if you really want to hack That fb account

Thanks for the share.

I disagree, unless you are someone like us that knows how to hide our personal details your a sitting duck to someone that knows what there doing.

?XiS - January 1, 2014, 11:23 am

(Jan 1, 2014 12:21 PM)Utronex Wrote: [\[CITE\]](#) I disagree, unless you are someone like us that knows how to hide our personal details your a sitting duck to someone that knows what there doing.

Exactly, some guy in my school pissed me off so I tried to hack his FB using this method, his security question was what is your favourite food, and the answer was pizza -_-

UTRONEX - January 1, 2014, 11:35 am

Exactly, i haven't hacked anyone's fb in a long time. The last time i did it was when fb were still allowing you to see peoples emails. Back then i did it to loads of my friends and family just to show them how easy it was for me to steal their account.

Pheros - January 1, 2014, 11:51 am

thanks, there is something for netlog?

Banish - January 1, 2014, 11:55 am

(Jan 1, 2014 11:02 AM)JerromeJarre Wrote: [\[CITE\]](#) Would be a lot better if it was 100% success rate, I'm pretty sure they will catch on too

You must take into account some people don't provide real answers.

Josbrafe - January 1, 2014, 5:33 pm

Cool tut, I like it, doesn't require much is victim is properly known.

?XiS - January 3, 2014, 11:54 pm

(Jan 1, 2014 06:33 PM)Josbrafe Wrote: [\[CITE\]](#) Cool tut, I like it, doesn't require much is victim is properly known.Simple, yet elegant :) JK, but yeah, I hope it helps some people out

Badalight - January 8, 2014, 11:40 pm

What do you suggest for gmail then? I have the answer to the security question - but it asks other stuff like "last password you remember" and a bunch of dumb stuff like that.

?XiS - January 9, 2014, 9:32 am

(Jan 9, 2014 12:40 AM)Badalight Wrote: [\[CITE\]](#) What do you suggest for gmail then? I have the answer to the security question - but it asks other stuff like "last password you remember" and a bunch of dumb stuff like that.hmm, i really couldn't answer this. Maybe try and hack their facebook with their facebook security answer, banking on their facebook security question + answer being the same as their gmail security question + answer. Maybe someone reading this thread is able to help you.

Good luck

Dropbox - January 9, 2014, 9:33 am

this is an awesome guide, filled with a lot of information
thanks for posting this

Kornox - January 9, 2014, 9:34 am

Thanks for the tutorial! This is the legit ways of hacking a Facebook there isn't any other way except cracking (brute forcing) but it can take time.

?XiS - January 9, 2014, 9:37 am

(Jan 9, 2014 10:33 AM)Adobe Dreamweaver Wrote: [\[CITE\]](#) this is an awesome guide, filled with a lot of information

thanks for posting thisNo problem, hope it helps :)

(Jan 9, 2014 10:34 AM)Kornox Wrote: [\[CITE\]](#) Thanks for the tutorial! This is the legit ways of hacking a Facebook there isn't any other way except cracking (brute forcing) but it can take time.Personally, i've never tried bruteforcing an account, but i know that it does take time, and a lot of programs that claim to be bruteforcing tools are in fact RATs/Keyloggers, so be wary when using one of these tools.

kemronkelin - January 9, 2014, 10:11 am

I cant get all the mail?

please teach a good and effective lesson.

?XiS - January 9, 2014, 10:35 am

(Jan 9, 2014 11:11 AM)kemronkelin Wrote: [\[CITE\]](#) I cant get all the mail?

Kind Regards, AXiS

Papa Hacker - January 9, 2014, 1:57 pm

Only thing that sucks, is so many people use thier cell as a text thing instead of the question

Pi_Rat - January 10, 2014, 9:47 am

thanks for the guide very useful information . thanks for share :)

fszz - January 10, 2014, 1:20 pm

Thanks for the share bro, it's a very good tut !

?XiS - January 10, 2014, 1:21 pm

(Jan 9, 2014 02:57 PM)Papa Hacker Wrote: [\[CITE\]](#) Only thing that sucks, is so many people use thier cell as a text thing instead of the questionThat is a problem, and i haven't found a way to bypass it yet ?

radicals - January 11, 2014, 5:33 pm

thanks for the share, gonna try this on my enemy :)

calamarokosa - January 11, 2014, 8:23 pm

thanks for take your time and share with us =)

luckyheart - January 12, 2014, 12:09 am

thnx for sharing bro i wll try it hope it wll work for me

master0612 - January 12, 2014, 12:14 am

Thanks a lot for that ;) its was rllly helpful

Peaches - January 12, 2014, 12:16 am

Didn't know this had a name haha. Apparently I do social engineering all the time!

?XiS - February 17, 2014, 11:13 am

This is a helpful method for newer members, read it before you ask other members to hack accounts for you.

Mrlickinloly - February 17, 2014, 11:16 am

This is a really obvious idea, you can do it with Facebook too.

Promethazine. - February 17, 2014, 11:23 am

Thanks AXiS, great tutorial and it WILL come in usefull in the future! :)

Trust - February 17, 2014, 11:49 am

Thank you AXiS! This is a wonderful tutorial.

I'm sure many users will find this useful. ?

?XiS - February 17, 2014, 12:14 pm

(Feb 17, 2014 12:49 PM)?rust Wrote: [\[CITE\]](#) Thank you AXiS! This is a wonderful tutorial.

I'm sure many users will find this useful. ?Thanks for the kind words, hopefully it helps out the newer members.

SIM-2059193 - February 17, 2014, 1:46 pm

nice tutorial and technique :)

Thank you for it

?XiS - February 17, 2014, 4:43 pm

(Feb 17, 2014 02:46 PM)The Doctor Wrote: [\[CITE\]](#) nice tutorial and technique :)

Thank you for itNo problem, i'm glad that it helped :)

hihi55 - February 17, 2014, 8:31 pm

now hotmail and facebook doesnt seem to have that security question option.. they ask for a new alternate point of contact (phone number or email). not sure what that does and if it sends the point of contact you input, to the person's original email, which can potentially expose you

The Allah - February 17, 2014, 8:32 pm

Thanks for the tut mate, will be checking this out as soon as I get the chance!

demonix max - February 18, 2014, 5:25 am

is this email thive method still working?

?XiS - February 18, 2014, 5:28 am

(Feb 18, 2014 06:25 AM)demonix max Wrote: [\[CITE\]](#) is this email thive method still working?Yes, it works for me, it should work for you too.

xyeta - February 18, 2014, 5:30 am

Didn't know security question was that important until I saw this... But if you ask me, I put all of the questions to something that I don't even recall and the answer be like "abasdase" LOL.

?XiS - February 18, 2014, 9:37 am

(Feb 18, 2014 06:30 AM)xyeta Wrote: [\[CITE\]](#) Didn't know security question was that important until I saw this... But if you ask me, I put all of the questions to something that I don't even recall and the answer be like "abasdase" LOL.But then how are you going to reset your own password when you forget it ;)

RustRuiner - February 18, 2014, 11:19 am

hmm gotta try this some time, thanks for the tut.

tropaect - February 18, 2014, 11:55 am

Say'd tks in 2s. you failed on this xD

xyeta - February 19, 2014, 2:56 am

(Feb 18, 2014 10:37 AM)•AXiS Wrote: [\[CITE\]](#) But then how are you going to reset your own password when you forget it ;)

That's the reason why I only use one password on all platforms..

?XiS - February 20, 2014, 4:49 pm

So if someone hacks one of your accounts, they know all your passwords...

Graphiix - February 20, 2014, 4:52 pm

Thanks for the tutorial OP. I appreciate it.

?XiS - February 20, 2014, 5:49 pm

(Feb 20, 2014 05:52 PM)Graphiix Wrote: [\[CITE\]](#) Thanks for the tutorial OP. I appreciate it.No problem, glad that it helped :)

AXiS

akramj - February 20, 2014, 6:13 pm

it is too hard to guess somebody's security answer

?XiS - February 20, 2014, 6:17 pm

(Feb 20, 2014 07:13 PM)akramj Wrote: [\[CITE\]](#) it is too hard to guess somebody's security answerIf you know them well, it shouldn't be hard at all.

I may release a tutorial in the future, explaining what kind of questions to ask the victim to get the answers out of them :)

jilava - February 21, 2014, 2:47 am

if dont have a account on microsoft live you can't to hack facebook,is great tut but...is a little hard

duude - February 21, 2014, 8:08 am

Thanks for posting pictures, helped a lot.

?XiS - February 21, 2014, 8:44 am

(Feb 21, 2014 03:47 AM)jilava Wrote: [\[CITE\]](#) if dont have a account on microsoft live you can't to hack facebook,is great tut but...is a little hardShould be bale to do roughly the same with gmail, if you know enough information about the victim.

inf4mouz - February 21, 2014, 11:31 am

This doesn't work always but great work

Glubz - February 21, 2014, 2:30 pm

Lol I've known these for ages, but great tut buddy.

Overriden - February 23, 2014, 1:17 am

I like this, Ill try it out tomorrow on some people. Good Post

hihi55 - February 23, 2014, 3:50 am

i dont know if its just me... but i tried at the hotmail end.... theres no option for security question. instead they asked to send to secondary email, or ask for a recovery code, or enter a new contact email and a bunch of other information...

Vuln - February 23, 2014, 5:02 am

Isn't this (the social engineering part) considered disallowed blackhat activity aka not allowed on HF?

?XiS - February 23, 2014, 5:14 am

(Feb 23, 2014 06:02 AM)[He]isenberg Wrote: [\[CITE\]](#) Isn't this (the social engineering part) considered blackhat aka not allowed on HF? I think that SEing js not allowed when you are using it to get free products, but just to make sure, I didnt go too in-depth with it.

Vuln - February 23, 2014, 5:27 am

(Feb 23, 2014 06:14 AM)•AXiS Wrote: [\[CITE\]](#) I think that SEing js not allowed when you are using it to get free products, but just to make sure, I didnt go too in-depth with it.
I see. The rule is indeed pretty vague...

-zERaIT - February 23, 2014, 6:32 am

Detailed and good tutorial in name of The Empire.
Goodjob on this mate!?

#BORNE - February 23, 2014, 7:28 am

Great tutorial •AXiS, thanks for sharing!

TheUnknownTime - February 23, 2014, 8:04 am

Nice TuT, but as you already mentioned you have to know the person very well to access on his/her Facebook account. Keep it up!

Plain - February 23, 2014, 8:31 am

Thank you so much for this, I got into like 5 accounts!!

Time_tik - February 23, 2014, 11:25 am

I do everything like you say, but the person I want to try to hack appears in white, without e-mail.

What can I do now ?

?XiS - February 23, 2014, 1:38 pm

(Feb 23, 2014 12:25 PM)Time_tik Wrote: [\[CITE\]](#) I do everything like you say, but the person I want to try to hack appears in white, without e-mail.

What can I do now ?Post a couple of pictures because I don't understand what you mean :/

Time_tik - February 23, 2014, 2:59 pm

I make a yahoo account and add my contacts from facebook, but the person that I want to hack, its e-mail don't appear in yahoo contacts, just is usuary name, without e-mail

?XiS - February 24, 2014, 10:07 am

(Feb 23, 2014 03:59 PM)Time_tik Wrote: [\[CITE\]](#) I make a yahoo account and add my contacts from facebook, but the person that I want to hack, its e-mail don't appear in yahoo contacts, just is usuary name, without e-mailCan you post some pictures, because i'm sure that their email must come up.

Time_tik - February 25, 2014, 9:27 am

This is the image:

<http://postimg.org/image/ns0hsvpvd/>

The person I want to hack, don't have any information about the e-mail what can I do ?

AnonChase - February 25, 2014, 9:43 am

(Jan 1, 2014 12:07 PM)•AXiS Wrote: [\[CITE\]](#) Nothing is different apart from the fact mine has picture,

and the other tutoris have fallen back the pages.
It is crazy how simple this is. It works too! I just did it to a "friend".

kev1nop - March 17, 2014, 1:53 am

They now do it the security code way though

ChaosTheory50 - March 17, 2014, 2:56 am

nice tutorial, really well explained thanks for this

GoatOfWar - March 17, 2014, 11:04 am

It works! Great Tnx men!

Very nice tutorial, good job!

Ignitions - March 17, 2014, 7:25 pm

Very detailed TUT thanks a lot man I will try later

TheHonestPirate - March 18, 2014, 5:52 pm

I did this a couple years back and ended up finding nudes of the girl in her email and I got into her facebook! :D

Baws. - March 19, 2014, 12:57 pm

Vouch for this method, lol worked the first time I tried

Arn Hackeur - March 19, 2014, 1:11 pm

Wow. I'll give it a try, looks great, thanks for this ^^

?XiS - March 28, 2014, 8:06 pm

(Mar 19, 2014 01:11 PM)Arn Hackeur Wrote: [\[CITE\]](#) Wow. I'll give it a try, looks great, thanks for this
^^No problem, post here/pm me if you need any help

zlocko - March 29, 2014, 7:11 am

Thanks for take your time and share it with us bro :)

Tormentor - March 29, 2014, 7:13 am

Ive tried it on about 20 different emails, the reset with security question hasn't come up once for them.

chiller001 - March 29, 2014, 8:23 am

The really neat thing about this is that it can't be patched, as facebook can't patch the humans brain (for now) ;) Thanks very informative

?XiS - July 9, 2014, 7:11 am

Seen people asking about this recently, pushing it back up to the top.

luckyheart - July 11, 2014, 3:46 am

axis bro still this method is working or not kindly reply thnx

Candela - July 11, 2014, 3:54 am

Thanks... I've learned something new here...

Silenzor - July 11, 2014, 10:08 am

It will only work with certain e-mail addresses. Only addresses that use a security question.

RAZEREYE - July 11, 2014, 12:47 pm

thanks this is very usefull.....nice

mhmdaj - July 25, 2014, 2:01 am

I will try the method later , thanks btw :)

?XiS - February 12, 2015, 1:39 pm

(Jul 11, 2014 10:08 AM)Silenzor Wrote: [\[CITE\]](#) It will only work with certain e-mail addresses. Only addresses that use a security question.True, it doesn't work with all email addresses.

SIM-2615218 - February 14, 2015, 10:04 pm

Thank you for providing such a great information.

KoolTubeHD - February 21, 2015, 10:51 pm

Its very hard and its not 100% working but nice tut!

dadada12 - February 22, 2015, 4:44 am

Thanks man, now i know what to do, Great tutorial :)

Jonix - February 27, 2015, 9:52 am

Well, I got the right answer, but when I login it says I have to verify it's really "me" who is using the account, I had to compile a questionnaire and hopefully they will unblock the account in one day.

No way to bypass the verification..

?XiS - March 1, 2015, 3:58 pm

(Feb 27, 2015 10:52 AM)Jonix Wrote: [\[CITE\]](#) Well, I got the right answer, but when I login it says I have to verify it's really "me" who is using the account, I had to compile a questionnaire and hopefully they will unblock the account in one day.

No way to bypass the verification..Yeah, there are downsides to using this particular method.

Nalgun - March 2, 2015, 9:00 am

Thanks really great tutorial good job..

Silfy - March 4, 2015, 4:41 pm

Any help for getting into a GMail account?

GhostClient - March 4, 2015, 7:27 pm

Looks great, hope that it works just as nice!

roleeswagger - March 5, 2015, 6:34 am

I used to do this in the windows live messenger era xD.. answers like where are you born? or whats you mother name? are too easy to SE

?XiS - March 5, 2015, 1:51 pm

(Mar 4, 2015 05:41 PM)Fapple Wrote: [\[CITE\]](#) Any help for getting into a GMail account?I might do a tutorial on this in the near future.

sheep_shagger - March 5, 2015, 9:18 pm

Please do... And can you still use this?

G_alka - March 6, 2015, 3:03 am

I'll give it a try. look simple and effective. Good TuT !

tigerfree - March 6, 2015, 11:15 am

Thanks man, such a simple technique yet you wouldn't know it unless you tried. Great tutorial :)

?XiS - April 2, 2015, 4:36 pm

(Mar 5, 2015 10:18 PM)sheep_shagger Wrote: [\[CITE\]](#) Please do... And can you still use this?Yep, this method still works on vulnerable accounts.

System32 - April 2, 2015, 6:06 pm

Thanks bro i really liked this, helped alot

?XiS - April 20, 2015, 9:12 pm

(Apr 2, 2015 06:06 PM)Sytem32 Wrote: [\[CITE\]](#) Thanks bro i really liked this, helped alotDo new users sign up to HF literally just to learn how to hack FB accounts ?

I'm glad it helped.

Eternal. - April 20, 2015, 9:13 pm

(Apr 20, 2015 09:12 PM)?XiS Wrote: [\[CITE\]](#) Do new users sign up to HF literally just to learn how to hack FB accounts ?

I'm glad it helped.

Probably searched for it, and yeah wouldn't surprise me.

ntouropolos - April 21, 2015, 5:04 am

but your victimi will understand that

XeBlast - April 21, 2015, 6:40 pm

Hey,

Hotmail/Outlook doesn't seems to have the security question anymore. Is there any other option?

Domingo - April 21, 2015, 7:27 pm

thanks for the share op, gonna try some of these

Hotcoins - April 21, 2015, 9:20 pm

Good tutorial , but we can't really call that a hack .

NoobUser_404 - October 10, 2019, 7:10 am

what about 2019? still working?
